The President

EXECUTIVE ORDER 9198

TRANSFER OF MERCHANT MARINE TRAINING FUNCTIONS

By virtue of the authority vested in me by Title I of the First War Powers Act, 1941, approved December 18, 1941, and in order to expedite the prosecution of the war effort, it is hereby ordered as follows:

1. The functions transferred to the Commandant of the United States Coast Guard by Section 5 of Executive Order No. 9083¹ are transferred to the Administrator of War Shipping Administration.

2. All records, property (including office equipment, floating equipment, and real property), and personnel of the United States Coast Guard as the Director of the Bureau of the Budget shall determine to have been used primarily in the administration of the functions transferred by this order shall be transferred to the Administrator of the War Shipping Administration for use in the administration of such functions: *Provided*, That no officers or men of the regular Coast Guard shall be so transferred and *Provided*, further, that no officers or men of the Coast Guard Reserve now on active duty shall be so transferred without their consent.

3. So much of the unexpended balances of appropriations, allocations, or other funds available or to be made available for the use of the United States Coast Guard in the exercise of the functions transferred by this order as the Director of the Bureau of the Budget with the approval of the President shall determine, shall be transferred to the Administrator of the War Shipping Administration for use in connection with the exercise of the functions so transferred. In determining the amount to be transferred the Director of the Bureau of the Budget may include an amount to provide for the liquidation of obligations

TITLE 10—ARMY: WAR DEPARTMENT

Chapter III—Claims and Accounts

PART 35—PAYMENT OF BILLS AND ACCOUNTS

Sections 35.5, 35.6 and 35.9 are retained without change in revision of AR 35-6040 and §§ 35.7 and 35.3 are hereby amended to read as follows:

§ 35.7 *What payment is authorized; general*—(a) *Payments under contracts for indefinite amounts not authorized.* Contracts containing provisions obligating the United States to pay unlimited or indefinite amounts are not authorized, but requirements may be stated as accurately as possible, with provisions for increases or decreases not exceeding given percentages. See 5 Comp. Gen. 450; 8 id. 354.

(b) *Payments under contracts for non-personal services*—(1) *Method of procurement.* Nonpersonal services will be engaged in accordance with the requirements of the laws governing the procurement of supplies.

(2) *Distinction between personal and nonpersonal services.* See 9 Comp. Gen. 169.

(3) *Payment for fractional parts of months.* The act of June 30, 1906 (34 Stat. 763), 5 U.S.C. 84; providing that, for pay purposes, each month shall be re-

garded as having 30 days, relates only to compensation of officers and employees of the United States for personal services, and has no application to contracts for nonpersonal service, as for the hire of a wagon and team, payment for which for a fractional part of a month should be on the basis of the actual number of days in the month. See 22 Comp. Dec. 711.

(4) *Forms of agreements for services of continuous nature.* Services of a continuous nature must be supported by a formal contract when the yearly amount exceeds \$500, or an informal agreement when the yearly amount is \$500 or less, same to be numbered and filed in the General Accounting Office. See 6 Comp. Gen. 642. When service is temporary, notation to that effect should appear on the voucher.

(5) *Rates effective "until further notice."* In the absence of competition there is no objection to entering into agreements for public utilities services at stipulated rates "until further notice," without necessity for new agreements or annual renewals except to cover changes in rates or service, unless the interests of the Government require otherwise in a particular case, the original agreements and all changes to be filed in the General Accounting Office, and the vouchers to cite the agreement involved and bear a statement by a responsible officer of the public utility concerned as to the rates charged. Payment may not be made for service in an amount stipulated in a substitute agreement which is in excess of the rate stated in the original contract, effective "until further notice," prior to the date of ac-

tual receipt of the substitute agreement by the proper administrative representative of the Government. See 15 Comp. Gen. 920; MS. Comp. Gen. A-65231, December 15, 1936.

(c) *Payment of taxes and duties on purchases by Government—(1) Customs duties on foreign purchases.* In the absence of specific legislation authorizing purchases made by the Government to come into the United States free of customs duty, the particular appropriation for a purchase is properly chargeable with the amount of the customs duty assessed thereon by the United States, and the fact that the importation came through in a certain fiscal year does not require it to be considered as a service rendered in that fiscal year so as to be charged against an appropriation in the fiscal year in which the importation was made instead of the appropriation involved in the particular purchase. (See 26 Comp. Dec. 610) Checks issued in payment of customs duties on imported merchandise will be drawn payable to and forwarded to the collector or deputy collector of customs at the port where entry was made.

(2) *Philippine export tax.* Appropriated funds may not be used to pay an export tax on property of the United States shipped from the Philippines sought to be imposed pursuant to the authority granted in the Philippine Independence Act of March 24, 1934 (48 Stat. 456), as amended by the Act of August 7, 1939 (53 Stat. 1226), to lay an export tax on "every Philippine article shipped from the Philippines to the United States." See 21 Comp. Gen. 226. (R.S. 161; 5 U.S.C. 22) [Par. 4, AR 35-6040, June 12, 1942]

§ 35.8 *Adjustments—(a) Mistakes in bids.* Where a contractor claims payment in addition to the contract price on the ground of a mistake in bid, the contract price only will be paid and any protest on the part of the contractor will be forwarded through the Chief of Finance to the General Accounting Office. (See 8 Comp. Gen. 397)

(b) *Transportation costs—(1) Savings in freight charges.* Shipment from a point nearer destination than the f. o. b. point named in a contract does not entitle the contractor to the saving in freight charges. (See 3 Comp. Gen. 56) Where a contract provides for delivery f. o. b. destination, and shipment is made on Government bill of lading, which entitles the Government to certain land-grant deductions from the regular commercial rates, the contractor is not entitled to the benefits obtained by the Government on account of said land-grant deductions. (See MS. Comp. Gen. A-30249, April 8, 1930)

(2) *Adjustments by General Accounting Office.* Where contractors are permitted to make shipments of supplies from points other than those named in the contract, which contract, in pursuance of advertisement for bids to that effect, permits such procedure and provides an apportionment feature for excess transportation costs, and the contractor is not willing to allow deductions for freight charges from the actual shipping

point to destination, or claims an additional amount on account of paying freight or other delivery charges that should have been borne by the Government, disbursing officers will submit vouchers in question to the General Accounting Office for direct settlement. (See 8 Comp. Gen. 500)

(c) *Coal contracts*—(1) *Changes in wage scale*. Standard Government forms of coal contracts provide for adjustment of prices on account of increases or decreases in cost of production due to changes in wage scale. See 8 Comp. Gen. 671; 16 id. 805; Finance Circular No. B-19.

(2) *Ash content*. Standard Form No. 43 (Standard Government Purchase Conditions—Coal), which forms a part of contracts for coal, provides for adjustment of prices where coal is sampled and found to contain excess ash content.

(d) *Inferior goods*. Acceptance of inferior goods does not entitle the contractor to other than payment on the basis of the reasonable value of the goods. (See 5 Comp. Gen. 993; 15 id. 612.) Disbursing officers will submit vouchers in such cases to the Chief of Finance for instructions as to payment.

(e) *Set-off*. Where a contractor is indebted to the Government under one contract, the Government may offset, without separate action, an amount owing to the contractor under another contract. (*Barry v. United States* (1913), 229 U.S. 47. See 7 Comp. Gen. 186) The right of set-off does not apply to unliquidated demands, but the Government has the equitable right to withhold payment of moneys due under one contract to a contractor who is in default under another contract until his indebtedness thereunder can be liquidated. See 7 Comp., Dec. 213.

(f) *Delay in performance*—(1) *When no damages provided for in contract*. (i) Where no specific provision is made in a contract for either liquidated or actual damages, the contractor is, upon failure to complete the contract within the specified time, chargeable with all expenses caused the Government by the delay as actual damages. (See 8 Comp. Gen. 455; 16 id. 277, 410)

(ii) Where there has been delay in performance under a contract which does not contain a provision for damages, payment in full will not be made except as set forth in (iv) below unless a certificate is furnished by the contracting officer, or the officer delegated by him to supervise performance, that no actual damage has been caused the Government by the delay. (See MS. Comp. Gen. A-28698, September 30, 1929)

(iii) In the case of delays in the completion of informal contracts involving less than \$500, the purchasing officer may furnish for file with the voucher a statement of the damage resulting from the delay, or certify that no damage resulted from the delay, and payment may be made in accordance with the certificate. (See 2 Comp. Gen. 385) See also subdivision (iv) of this subparagraph.

(iv) Certificates will not be required in cases where, due to the nature of the supplies involved or of the purpose for

which they were procured, it is apparent either that the contractor was not responsible for the delay, or that the delay resulted in no damage, but in all other cases involving delay in delivery, credit may not be allowed by the General Accounting Office for payment without deduction unless it be shown, by a certificate or otherwise, either that the contractor was not responsible for the delay, or that the delay did not result in any actual damage to the United States. See MS. Comp. Gen. B-23662, March 3, 1942.

(2) *When damages provided for in contract*—(i) *Deductions of damages*. Whenever, under a standard Government form of contract containing a provision for liquidated damages, the contractor fails for any reason to execute completely the contract within the period stipulated in the original contract or valid agreements supplemental thereto, or change orders, such period to include any extensions in the time for completion made in accordance with the provisions of the contract, the disbursing officer when making payment thereunder will withhold the liquidated damages covering the entire period of delay regardless of cause, and claim credit for the net amount only, leaving in the appropriation the amount so withheld, subject to final adjustment by the General Accounting Office. Amounts withheld on account of liquidated damages will not again become available for obligation or for payment by disbursing officers. Any protest made by the contractor against the deduction of liquidated damages will be forwarded, together with a statement of all payments made, citations to all vouchers, and a detailed statement from the contracting officer, through the Chief of Finance to the General Accounting Office. See 16 Comp. Gen. 374.

(ii) *Discounts and price changes*. (a) Where a contract contains a liquidated damage clause based on the contract price, but not to exceed a stated percentage of the stipulated value of the articles or materials not delivered, and also an offer of discount for prompt payment, liquidated damages for delayed performance should be deducted on the basis of the gross contract price, irrespective of discount which likewise is to be computed on the gross contract price, irrespective of liquidated damages.

(b) Where a contract originally specifying a delivered price, subsequently modified for acceptance f. o. b. contractor's works at a reduced price because of delivery by Government bill of lading, contains a liquidated damage clause based on the contract price, but not to exceed a stated percentage of the stipulated value of the articles or materials not delivered, and also an offer of discount for prompt payment, liquidated damages and discount should be computed on the basis of the reduced contract price, and without regard to each other; that is, each on the basis of the gross new contract price.

(c) Where a contract containing a liquidated damage clause based on the contract price, but not to exceed a stated

percentage of the stipulated value of the articles or materials not delivered, contains also guarantees by the contractor that the equipment will be in accordance with the specifications, and provisions for either rejection, acceptance at a price reduction, or deduction of a specified amount, as a penalty, for overweight, liquidated damage assessments for delayed performance should be computed on the new contract price where price reduction is made because of the overweight, but, where a penalty is assessed for the overweight, and no new contract price is effected thereby, liquidated damages and discount should be computed on the basis of original contract price. See 10 Comp. Gen. 724.

(iii) *Progress payments*. Partial payments as distinguished from final payment, may be made on periodical progress reports without deduction of liquidated damages for time intervening between the effective date of an order for suspension of work and the effective date of an order to resume work, or delivery of supplies. See 8 Comp. Gen. 80.

(iv) *Change orders*. Liquidated damages need not be deducted for delays resulting from changes in specifications covered by change orders issued in accordance with provisions of standard forms of contracts. The change order should specify the changes, increase or decrease in price, and the number of days added thereby. See MS. Comp. Gen. A-26558, April 1, 1929.

(v) *Termination*. Where a contractor abandons his contract, necessitating the termination thereof by the Government and the subsequent reletting of the uncompleted portion of the work to another contractor, no liquidated damages accrue to the United States after the date of termination in the absence of a provision in the contract that liquidated damages will not cease to accrue at the time of termination. See 7 Comp. Gen. 409, 11 id. 81; 15 id. 903; 17 id. 503.

(g) *Default*—(1) *Disposition of amounts collected*. Amounts collected on account of actual damages or excess costs charged to defaulting contractors should be credited to Miscellaneous Receipts (see MS. Comp. Gen. A-26073, March 20, 1929, August 8, 1929; 10 Comp. Gen. 510), but amounts collected on account of the rejection of unsatisfactory supplies may be credited to the appropriations from which the original payments were made. See 8 Comp. Gen. 103.

(2) *Information on voucher*. When deduction is made from a payment to a defaulting contractor on account of the excess cost of an open-market purchase against his account, the voucher should bear reference to the vouchers in connection with which the excess costs were incurred.

(3) *Cash discounts*. A defaulting contractor, in the absence of any provision in the contract that cash discount offered was to be taken into account in determining such excess cost, is chargeable with the discount in determining the excess cost unless no attempt was made to secure a like discount from the dealer

from whom the open-market purchase was made. See 4 Comp. Gen. 807; 15 id. 177.

(4) *Rights of sureties.* Settlement with the contractor and surety is made by the General Accounting Office in accordance with the following: A surety which completes work under a contract on which it is surety is subrogated to the rights of the contractor against the Government for the unpaid balance due from the United States on that contract and also to the rights of the Government against the contractor for the excess cost of completing the work or furnishing the materials and supplies, and, therefore, the surety is entitled to be paid by the Government the cost to the surety of completing the work but no profit. The contractor is entitled to be paid for work performed by it, if any funds are available for such payment after reimbursing the surety. The total payments by the Government must not exceed the contract price. (See 16 Comp. Dec. 351, 490; 26 id. 467; 5 Comp. Gen. 995; 8 id. 36, 58, 266, 318, 435.) It is the practice to require releases from the contractor and the surety. (See 5 Comp. Gen. 995, 999; 8 id. 266, 272) Payment into court of the balance should not be made. (See 14 Comp. Gen. 567) The amount remaining due may be paid to the assignee of a receiver where the court orders the receiver to accept the assignee's offer to complete the work in consideration of receiving all the payments and retained percentages due. See 3 Comp. Gen. 623. (R.S. 161; 5 U.S.C. 22) [Par. 5, AR 35-6040, June 12, 1942]

PART 38—ALLOTMENTS OF PAY

DEATH OF ALLOTTER OR ALLOTTEE

Sections 38.3 and 38.4 are hereby amended to read as follows:

§ 38.3 *Effect of death of allotter.* Allotments are in the nature of powers of attorney, which are revoked by the death of the principal. Chief of Finance, Allotment Division, Washington, D. C., will make no further payments of an allotment after receipt of advice of the allotter's death, even though it is known that deductions were made from the allotter's pay and not paid to the allottee. Such amounts become a part of the estate of the allotter and will be settled by the General Accounting Office, Washington, D. C., upon presentation of claim. See 10 Comp. Dec. 208, 26 id. 855. (Sec. 16, 30 Stat. 981; 40 Stat. 384; 10 U.S.C. 894; 52 Stat. 354) [Par. 22, AR 35-5520, Mar. 4, 1941, as amended by Cir. 212, W.D., July 1, 1942]

§ 38.4 *Effect of death of allottee—(a) Action by Chief of Finance, Allotment Division, Washington, D. C.* Upon receipt of information of the death of

any person to whom an allotment is payable by him, the Chief of Finance, Allotment Division, will report the death to the officer responsible for the preparation and submission of allotments.

(b) *Allotment checks not collected or negotiated.* When allotment checks are not collected or negotiated prior to the death of the allottee, even though indorsed, the amounts thereof do not become a part of the allottee's estate or subject to any expense incurred by, or on behalf of, the allottee before or after death. (See 26 Comp. Dec. 855) All such checks should be returned to the Chief of Finance, Allotment Division, Washington, D. C. Unless the allotter has been separated from the service and has received final payment, the Chief of Finance, Allotment Division, Washington, D. C., will upon receipt of the returned check give authority to credit the amount on the current pay rolls or pay vouchers. (Sec. 16, 30 Stat. 981; 40 Stat. 384; 10 U.S.C. 894; 52 Stat. 354) [Par. 23, AR 35-5520, March 4, 1941, as amended by Cir. 212, W.D., July 1, 1942]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Amendment 01-3, Civil Air Regulations]

PART 01—AIRWORTHINESS CERTIFICATES

REMOVAL, RELEASE AND PRESERVATION OF AIRCRAFT WRECKAGE

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 10th day of July, 1942.

Acting pursuant to sections 205 (a), 601, and 702 of the Civil Aeronautics Act of 1938, as amended, the Civil Aeronautics Board amends the Civil Air Regulations as follows:

Effective July 25, 1942, Part 01 of the Civil Air Regulations is amended as follows:

1. By striking § 01.31 and inserting in lieu thereof a new § 01.31 through 01.312 as follows:

§ 01.31 *Removal, release and preservation of wreckage.*

§ 01.310 *Removal.* (a) No aircraft or part thereof, involved in an air carrier accident or in an accident resulting in serious or fatal injury to any person, or accident known or believed to have resulted from structural failure in flight shall be moved or disturbed, except:

(1) When necessary for giving assistance to persons injured or trapped in the wreckage;

(2) When necessary in the interest of public safety;

(3) When specific permission shall have been granted by an authorized representative of the Civil Aeronautics Board, or of the Administrator of Civil Aeronautics;

(4) When prompt movement of the aircraft is necessary to protect it from further serious damage and it is impossible to secure immediate communication with any person authorized in subparagraph (3) to direct the removal.

(b) Any movement of the aircraft, or any part thereof, under paragraph (a) shall be so accomplished as to entail the minimum possible disturbance of the material concerned. Prior to such movement a record of the original position and condition of the wreckage (as complete and accurate as possible under the

circumstances) shall be made unless the danger to public safety is such as to permit of no delay whatever, or unless an authorized representative of the Civil Aeronautics Board has directed otherwise.

(c) The requirements of this section shall be applicable with respect to all accidents as described in paragraph (a) hereof, which occur within the United States and with respect to all air carrier accidents without regard to where they occur.

§ 01.311 *Release*. No aircraft or part thereof, involved in an air carrier accident or in an accident resulting in serious or fatal injury to any person, or accident known or believed to have resulted from structural failure in flight, shall be released for repair, salvage, disposal, or any other purpose except upon specific permission granted by an authorized representative of the Civil Aeronautics Board.

§ 01.312 *Preservation*. An aircraft, aircraft engine, propeller or appliance, or any part or parts thereof, involved in an accident, shall be preserved and removed to such place or places as directed by the Civil Aeronautics Board or any authorized representative thereof for purposes of safekeeping, inspection, testing or any other purpose consistent with the powers and duties granted the Civil Aeronautics Board under section 702 (a) of the Civil Aeronautics Act of 1938, as amended: *Except*, That the wreckage of an aircraft involved in a type of accident other than the categories described in § 01.310 need not be preserved unless specifically directed by the Civil Aeronautics Board or an authorized representative thereof.

2. By striking § 01.32 and inserting in lieu thereof the following:

§ 01.32 Unassigned.

By the Civil Aeronautics Board.

Chapter II—Administrator of Civil Aeronautics, Department of Commerce

[Amendment 6 of Part 600]

PART 600—DESIGNATION OF CIVIL AIRWAYS REDESIGNATION OF AMBER CIVIL AIRWAY NO. 6.

JULY 11, 1942.

Acting pursuant to the authority vested in me by section 302 of the Civil Aeronautics Act of 1938, as amended, I hereby amend Part 600 of the Regulations of the Administrator of Civil Aeronautics as follows:

By inserting after "Smiths Grove, Kentucky, radio range station," in § 600.10105¹ the following:

"The intersection of the center lines of the on course signals of the northeast

leg of the Smiths Grove, Kentucky, radio range and the south leg of the Louisville, Kentucky, radio range."

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. 4415]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

PEGGIE MORAN COMPANY, INC. ET AL.

§ 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product*: § 3.6 (x) *Advertising falsely or misleadingly—Results*. In connection with offer, etc., of respondents' "Peggie Moran Sayon" cosmetic, or any other similar product, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means, to induce, etc., directly or indirectly, purchase in commerce, etc., of said product, which advertisements represent, directly or through inference, that respondents' product possesses any value in the removal of excess flesh or excess weight from the body or from any particular part or area of the body; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, Peggie Moran Company, Inc., et al., Docket 4415, July 7, 1942]

In the Matter of Peggie Moran Company, Inc., a Corporation, and Irene Johnston, Inc., a Corporation

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 7th day of July, A. D. 1942.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answers of the respondents, testimony and other evidence in support of the allegations of the complaint and in opposition thereto, taken before a Trial Examiner of the Commission theretofore duly designated by it, the report of the Trial Examiner upon the evidence and the exceptions to such report, and brief in support of the complaint (no brief having been filed by respondents and oral argument not having been requested), and the Commission having made its findings as to the facts and its conclusion that the respondents have violated the provisions of the Federal Trade Commission Act;

It is ordered, That the respondents, Peggie Moran Company, Inc., a corporation, and Irene Johnston, Inc., a corporation, and their officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of respondents' cosmetic product designated "Peggie Moran Sa-

von", or any other product of substantially similar composition or possessing substantially similar properties, whether sold under the same name or any other name, do forthwith cease and desist from directly or indirectly:

1. Disseminating or causing to be disseminated any advertisement by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Acts, which advertisement represents, directly or by implication, that respondents' product possesses any value in the removal of excess flesh or excess weight from the body or from any particular part or area of the body.

2. Disseminating or causing to be disseminated any advertisement by any means for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of respondents' product, which advertisement contains any representation prohibited in paragraph 1 hereof.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

Chapter I—Bureau of Customs

[T. D. 50678]

PART 8—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

FREE ENTRY, EFFECTS OF UNITED STATES PERSONNEL AND EVACUEES¹

JULY 10, 1942.

Personal and household effects of certain classes of persons in the service of the United States, their families, and evacuees entitled to free entry under Public Law 633, approved June 27, 1942.

Public Law 633, approved June 27, 1942, to exempt from duty and tax the personal and household effects of persons evacuated to the United States under Government orders, and of certain classes of persons in the service of the United States, or of their families, is published below for your information and guidance:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, under such regulations as the Secretary of the Treasury may prescribe, the personal and household effects of any person in the service of the United States, or of his family, or of any person evacuated to the United States under Government orders, may be brought into the United States or any of its possessions, pursuant to Government orders or instructions,

¹ This document adds new section 8.26b in Title 19, Code of Federal Regulations.

without the payment of any duty or tax imposed upon, or by reason of, importation.

SEC. 2. This Act shall be effective with respect to articles entered for consumption or withdrawn from warehouse for consumption on or after December 8, 1941, and shall have no force or effect on or after the day following the proclamation of peace by the President. The free entry herein authorized shall apply to any effects described in section 1 which are in customs custody on the effective date of this Act, notwithstanding the provisions of sections 490 and 491 of the Tariff Act of 1930, as amended.

The following regulations are hereby promulgated pursuant to the provisions of section 1 of the Act:

§ 8.26b *Free entry of personal and household effects of certain classes of persons in the service of the United States, of their families, and of evacuees.* (a) Under Public Law 633, approved June 27, 1942, free entry may be accorded to the personal and household effects of any person evacuated to the United States under Government orders and to the personal and household effects of any person in the service of the United States, or of his family, which are forwarded to the United States by reason of Government instructions regarding the movement of the owner or the articles, whether or not the owner returns to this country.

(b) The Act does not apply to articles imported for sale, but the term "personal effects" as used therein is not confined to that class of articles described in the first provision of paragraph 1798, Tariff Act of 1930, as amended (U.S.C. 1940 ed., sec. 1201, par. 1798); nor is any period of use, such as is prescribed by paragraph 1632, Tariff Act of 1930 (U.S.C. 1940 ed., sec. 1201, par. 1632), applicable to household effects entered under this Act.

(c) All articles for which free entry is claimed under the Act shall be entered or withdrawn in accordance with the requirements prescribed by the Tariff Act of 1930. The Bureau has not prepared forms of declarations or certificates to be filed in connection with such entries or withdrawals. Collectors of customs shall, therefore, accord free entry under the statute upon the production of satisfactory proof that the articles are entitled to the benefit thereof.

(d) Certified or other invoices shall not be required for articles accorded free entry under the Act.

(e) The Act is effective with respect to articles entered, or withdrawn from warehouse, for consumption on and after December 8, 1941, and before the proclamation of peace by the President. Duties and taxes paid on articles entered or withdrawn on or after December 8, 1941, may therefore be refunded provided such refunds are not precluded by the provisions of section 514 or 520 (c) (2), Tariff Act of 1930, as amended (U.S.C. 1940 ed., title 19, §§ 1514, 1520 (c) (2)). (Secs. 481, 484, 498, 46 Stat. 719, 722, 728; 19 U.S.C. 1481, 1484, 1498.)

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

PART 333—MINIMUM PRICE SCHEDULE, DISTRICT No. 13

[Docket No. A-1325]

ORDER GRANTING RELIEF

Order granting relief in the matter of the petition of Bituminous Coal Consumers' Counsel for the establishment of the same price classifications and minimum prices for the coals produced at mines in Sub-District 4 of District 13 for shipments by river as are applicable to such coals for truck shipments.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with the Bituminous Coal Division by the Bituminous Coal Consumers' Counsel on February 17, 1942, requesting that the price schedules of District 13 be amended so as to permit shipments via the Tennessee River at the same f. o. b. mine prices as are now applicable for shipment by truck, and that pending a decision on the general question of river prices, im-

mediate temporary relief be granted permitting all producers in Subdistrict 4 of District 13 to ship coal to the United States Government for use at the Huntsville Arsenal¹ at the same prices f. o. b. the mine as are now applicable for shipment by truck;

Petitions of intervention having been filed by District Boards 8, 9, and 13;

A hearing having been held on March 19, 1942, before a duly designated Examiner of the Division at a hearing room thereof in Chattanooga, Tennessee, at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard;

Temporary relief having been granted in this matter by orders of the undersigned dated May 11, 1942, 7 F.R. 3535, and June 22, 1942, 7 F.R. 4703;

The parties having waived the preparation and filing of the Examiner's Report, the undersigned having made Findings of Fact, Conclusions of Law, and having rendered an Opinion in this matter, which are filed herewith;

It is therefore ordered, That effective seven (7) days from the date hereof, the Schedule of Effective Minimum Prices for District No. 13 for All Shipments Except Truck be, and the same hereby is amended by adding thereto Subdistrict No. 5 as follows:

1. Section 333.5 (*Identification of sub-district numbers*) is hereby amended as follows:

All mines previously grouped in Subdistrict 3 and Subdistrict 4 be and they hereby are grouped also in Subdistrict 5 for the purpose of minimum prices for free alongside shipments via the Tennessee River; and

2. Sections 333.26 and 333.27 are hereby added to the Schedule as follows: By the addition of Supplement R-I, § 333.26 (*Prices for river (free alongside deliveries) and ex-river shipments*), and Supplement R-II, § 333.27 (*Prices for shipment by river (free alongside) for all uses (except for railway locomotive fuel) for delivery via the Tennessee River to f. a. s. consumers in the States of Tennessee and Alabama*), attached hereto and made a part hereof, providing for prices for river (free alongside deliveries) shipments on shipments of

coal via the Tennessee River from mines in Subdistrict 5 to free alongside consumers in the States of Tennessee and Alabama.

It is further ordered, That all temporary relief hereto granted in this proceeding is terminated effective seven (7) days from the date hereof.

It is further ordered, That the relief is granted to the extent set forth above and in all other respects is denied.

Dated: July 9, 1942.

Acting Director.

SCHEDULE OF EFFECTIVE MINIMUM PRICES FOR DISTRICT No. 13

NOTE: The material contained in these supplements is to be read in the light of the classifications, prices, instructions, exceptions and other provisions contained in Part 333, Minimum Price Schedule for District No. 13 and supplements thereto.

FOR ALL SHIPMENTS EXCEPT TRUCK

SUB-DISTRICT 5—TENNESSEE-GEORGIA

Special River Price Instructions and Exceptions—Supplement R-I

§ 333.26 *Prices for river (free alongside deliveries) and ex-river shipments—*
(a) *Definition of river (free alongside) deliveries.* "River (free alongside) deliveries", as used in this Schedule, means:

(1) Deliveries in barges or other floating equipment alongside river docks or other barge unloading facilities to purchasers for consumption in their plants which adjoin such docks or other barge unloading facilities;

(2) Deliveries in barges or other floating equipment to purchasers for consumption on floating equipment operated by them;

(3) Deliveries in barges or other floating equipment alongside river docks or other barge unloading facilities to those retail dealers (not located in the Cincinnati, Louisville, Memphis, Chicago or Minneapolis-St. Paul areas as herein defined), for resale at retail, who operate such river docks or other barge unloading facilities and whose yard and storage facilities (in which the coal purchased free alongside is stored, when it is stored) adjoin such river docks or other barge unloading facilities; and

(4) Deliveries to any person at the mine or at a point nearer the mine than the river docks or other barge unloading facilities for transportation in barges or other floating equipment to a purchaser who takes free alongside delivery, within the meaning of paragraph (a) (1) or (a) (2) of this section.

(b) *Definition of ex-river deliveries.* "Ex-river deliveries", as used in this

Schedule, means deliveries involving river transportation other than those defined in paragraph (a) of this section.

(c) *Special cases.* (1) Any code member or Consumers Counsel Division, on behalf of any consumer or retail dealer (which consumer or retail dealer falls within the definition of a purchaser of ex-river coal, as defined in paragraph (b) of this section, but who (i) in the past customarily purchased coal moving by river at such prices and under such conditions that the coal moving by river was not competitive with coal of comparable quality moving by rail, truck or ex-lake dock, or (ii) in the past regularly purchased coal moving by river at a savings over available prices for comparable coal moving by rail, truck, or ex-lake dock) may file a petition requesting that such consumer or retail dealer be enabled to purchase at the minimum f. o. b. mine prices for free alongside delivery; and the Division shall, after hearing and upon satisfactory showing, authorize the sale of river coal to such purchaser by one or more code members at minimum f. o. b. mine prices for free alongside delivery, subject to such conditions as may be necessary to accomplish the objectives of the Act and to maintain the prescribed minimum prices. Any such petition filed by a code member or Consumers Counsel Division, as herein provided, and the procedure subsequent thereto shall be governed by the rules and regulations governing the procedure in respect to applications under section 4 II (d) of the Bituminous Coal Act of 1937.

Similarly, any code member or Consumers Counsel Division may file a petition requesting appropriate relief on behalf of any consumer or retail dealer, who in the absence of established minimum f. o. b. mine prices and by virtue of some future development, would have customarily purchased coal moving by river at such prices and under such conditions that the coal moving by river would not be competitive with coal of comparable quality moving by rail, truck or ex-lake dock, or would have regularly purchased coal moving by river at a savings over available prices of comparable coal moving by rail, truck or ex-lake dock. Such future development may pertain to the location of the plant or facilities of the consumer or retail dealer, the cost of river transportation or other similar matters.

Any State or political subdivision of a State, which is a consumer of ex-river coal, may, on its own behalf, file petitions such as those which a code member or the Consumers Counsel Division may file, as above provided.

¹ The original petition makes reference only to the Huntsville Arsenal of the War Department of the United States Government. At the hearing the petitioner moved to amend the petition to include a prayer for relief for the Red Stone Ordnance Plant, a munitions unit of the War Department adjoining the arsenal. The motion was granted by the Examiner.

PART 328—MINIMUM PRICE SCHEDULE,
DISTRICT No. 8

ORDER CORRECTING TYPOGRAPHICAL ERROR

Order correcting typographical error in the matter of the petition of District Board No. 8 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 8.

In Supplement R-I, § 328.11 (*Alphabetical list of code members*) attached to and made a part of an Order Granting Temporary Relief and Conditionally Providing for Final Relief issued May 6, 1942, 7 F. R. 3872, in the above-entitled matter, the mine index number of the Calora Mine of The Sampson Elkhorn Coal Co. was inadvertently printed as Mine Index No. 446. It appears that this is a typographical error, that the correct mine index number for the Calora Mine is Mine Index No. 466, and that it should so appear in the above-mentioned Supplement R.

Accordingly it so ordered.

Dated: July 11, 1942.

PART 337—MINIMUM PRICE SCHEDULE,
DISTRICT No. 17

ORDER GRANTING RELIEF

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 17 for establishment of price classifications and minimum prices for certain mines.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals produced at certain mines in District No. 17;

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 337.4 (*Code member price index*) § 337.5 (*General prices; minimum for shipment via rail transportation*) and § 337.21 (*General prices in cents per net ton for shipment into all market areas*) in the Schedules of Effective Minimum Prices for District No. 17 for All Shipments Except Truck and for Truck Shipments are supplemented to include for the coals produced at the Koehler Mine (Mine Index No. 518) of code member St. Louis, Rocky Mountain and Pacific Company located

in Colfax County in the State of New Mexico in Subdistrict 9 in District No. 17, with rail shipping point at Koehler, New Mexico on the Atchison, Topeka & Santa Fe Railway with Freight Origin Group No. 90, price classifications and minimum prices in cents per net ton f. o. b. the transportation facilities at the mine as follows:

For Shipments Via Rail Transportation The price classifications and minimum prices set forth in § 337.5 in that Schedule, as amended, applicable to the coals produced in Subdistrict 9 by all other code members except the coals of the Sugarite Mine of that Company.

FOR SHIPMENT BY TRUCK

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

No relief is granted herein with respect to the coals produced at the Sun Mine (Mine Index No. 515) of code member Thomas E. Barton for the reason that the price classifications and minimum prices requested for such coals were established in the Order Granting Temporary Relief and Conditionally Providing for Final Relief entered on June 23, 1942, 7 F. R. 5042, in Docket No. A-1486.

Chapter IX—War Production Board

Subchapter A—General Provisions

PART 903—DELEGATIONS OF AUTHORITY

[W.P.B. Regulation No. 1]

DELEGATING POWERS WITH RESPECT TO
PRIORITIES TO DIRECTOR GENERAL FOR
OPERATIONS; AND RATIFYING ACTIONS OF
DIRECTOR OF PRIORITIES AND DIRECTOR OF
INDUSTRY OPERATIONS

Section 903.0, War Production Board Regulation No. 1,¹ is hereby amended to read as follows:

¹ 7 F. R. 561, 2126, 4155.

Pursuant to the authority vested in me by Executive Order No. 9024 of January 16, 1942, Executive Order No. 9040 of January 24, 1942, and Executive Order No. 9125 of April 7, 1942, the following regulation is hereby issued:

§ 903.0 Regulation No. 1. (a) (1) The Director General for Operations shall perform the functions and exercise all the powers, authority and discretion conferred upon the President by section 2 (a) of the Act of June 28, 1940, as amended by the Act of May 31, 1941, and by the Act of March 27, 1942, including the power of the Chairman of the War Production Board under paragraph (e) of Directive No. 1² of the War Production Board (§ 903.1) to delegate to the Office of Price Administration additional powers with respect to the exercise of rationing control and to amend the delegation with respect thereto contained in said Directive No. 1.

(2) The Director General for Operations shall review, clear and approve for execution all requests or proposals originating from other Federal agencies, private industry, or other sources for priority action with respect to the procurement, production, transmission or transportation of materials, articles, power, fuel, and other commodities; issue or provide for the issuance of all priority orders, warrants, certificates or ratings with respect to the supply, production, transmission or transportation of materials, articles, power, fuel, and other commodities, and, with reference to specific priority authorities vested by law in established departments and agencies of the Government, certify to such departments and agencies, when he deems such action necessary to the most effective prosecution of war procurement and production, that preferential treatment is essential for certain materials, commodities, facilities or services.

(3) The Director General for Operations shall, in consultation with the United States Maritime Commission, determine when, to what extent, and in what manner, priorities shall be accorded to deliveries of material as provided in section 2 (a) (3) of Public No. 46, 77th Congress, First Session, entitled "An Act to Make Emergency Provision for Certain Activities of the United States Maritime Commission, and for Other Purposes," approved May 2, 1941. Deliveries of material shall take priority as provided in said Act in accordance with such determinations and the orders issued in pursuance thereof by the Director General for Operations.

(4) The Director General for Operations shall perform the functions and exercise all the powers, authority and discretion conferred upon the Chairman of the War Production Board by Executive Orders 8942,³ 9024, 9040, and 9133,⁴ under the Act of October 10, 1940, as amended, and the Act of October 16, 1941, as amended, except the power, authority and discretion conferred upon the Chairman of the War Production Board by paragraph 1b of Executive Order 9040 to establish policies and to

issue rules and regulations with respect to requisitioning under said Acts.

(b) The Director General for Operations may exercise the powers, authority and discretion conferred upon him by this regulation through such officers of the War Production Board and such other officials of the Government (including the Contracting and Procurement Officers and Inspectors of the War and Navy Departments) and in such manner as he may determine.

(c) All existing rules, regulations, orders, directions, certificates and other actions of the Director of Industry Operations or of his predecessor, the Director of Priorities of the Office of Production Management, are hereby ratified and confirmed and shall remain in full force and effect until they expire by their terms or are revoked or amended, and any references therein or in any rule, regulation, order, direction, certificate or other action hereafter issued or taken, to the Director of Industry Operations, or to his predecessor, the Director of Priorities, shall be deemed to be references to the Director General for Operations. Any such rules, regulations, orders, directions, certificates and other actions hereafter issued or taken in the name of the Director of Industry Operations in any manner heretofore authorized shall be valid for all purposes to the same extent as if issued or taken in the name of the Director General for Operations, unless such authorization shall have been specifically revoked. Subchapter B—Division of Industry Operations
PART 1029—FARM MACHINERY AND EQUIPMENT AND ATTACHMENTS AND REPAIR PARTS THEREFOR

[Limitation Order L-26, as Amended July 14, 1942]

RESTRICTION OF PRODUCTION OF FARM MACHINERY AND EQUIPMENT AND ATTACHMENTS AND REPAIR PARTS THEREFOR

Section 1029.1 *Limitation Order L-26*,¹ as amended, is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage of critical materials entering into the manufacture of farm machinery and equipment and attachments and repair parts therefor, for defense, for private account and for export; and the following Order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1029.1 *Limitation Order L-26*—(a) *Applicability of Priorities Regulation No. 1*. This order and all transactions af-

fected thereby are subject to the provisions of Priorities Regulation No. 1, as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(b) *Definitions*. For the purpose of this order:

(1) "Person" means any individual, partnership, association, corporation, or other form of enterprise.

(2) "Producer" means any person engaged in the manufacture of farm machinery and equipment or of attachments and repair parts for farm machinery and equipment.

(3) "Farm machinery and equipment" means agricultural machinery, mechanical equipment and implements used for the production or care of crops, livestock, or other produce on a farm (or elsewhere in the case of poultry) including irrigation and drainage equipment, horseshoes, horseshoe nails and harness hardware, but excluding attachments and repair parts for farm machinery and equipment and also excluding all of the following: Tractor type tractors, hand tools other than those listed on Schedule A described below, special equipment ordered by the United States Department of Agriculture, buildings and repairs thereto, fencing, poultry nettings and wire, gates or wire fencing, bale ties or straps, well casing and water pipe, nails (other than horseshoe nails) and sundry hardware.

(4) "Attachments and repair parts" means all types of attachments to and all types of parts customarily used in conjunction with farm machinery and equipment or for the repair thereof.

(5) "Material" means any commodity, equipment, accessory, part, assembly or product of any kind.

(6) "Schedule A" means either that schedule of quota percentages (originally issued December 31, 1941) designated as "Schedule A," attached hereto and made a part hereof, as amended from time to time, or "Schedule A-1" (originally issued March 30, 1942) attached hereto and made a part hereof, as amended from time to time: *Provided*, That:

(i) To be entitled to use the percentages set forth in said Schedule A-1, a producer shall file with the War Production Board prior to March 30, 1942, his election to do so;

(ii) If such election is filed, a producer shall use only those percentages set forth in said Schedule A-1, and that if no such election is filed, a producer shall use only those percentages set forth in said Schedule A; and

(iii) Nothing in said Schedule A-1 shall entitle a producer to use an amount of any material in excess of the amount he would be entitled to use if limited to the percentages set forth in said Schedule A.

(c) *General restrictions*. (1) During the period November 1, 1941, to October 31, 1942, inclusive, no producer shall:

(i) For sale in the Continental United States, manufacture a number of any item of farm machinery and equipment listed in Schedule A in excess of that number obtained by multiplying the quota percentage designated in Schedule A for such item by the number produced by said producer during the calendar year 1940 or sold by him during such calendar

year (whichever basis said producer may choose but the basis chosen shall be applied to all farm machinery and equipment manufactured by him): *Provided*, however, That wherever Schedule A lists an item of farm machinery and equipment but in lieu of a quota percentage lists producers by name and their respective quotas by number of units, no such producer shall manufacture more than his respective quota number of such item and a producer not named shall not manufacture any of such item.

(ii) For sale in the Continental United States, use in the production of attachments and repair parts listed in Schedule A, an amount of any material in excess of that amount obtained by multiplying the quota percentage designated in Schedule A for each item of attachments and repair parts by the amount of that material used by said producer in the production of such attachments and repair parts during the calendar year 1940, or so used in such attachments and repair parts sold by him during such calendar year (whichever basis said producer may choose, but the basis chosen shall be applied to all attachments and repair parts manufactured by him), the amount of material being determined by the net weight of each such material physically incorporated in the final product plus a reasonable minimum allowance for loss in any and all stages of the process of manufacture.

(iii) Manufacture for shipment, or ship:

(a) To all foreign countries (except Canada), including territories and possessions of the United States, a quantity of farm machinery and equipment and attachments and repair parts in the aggregate in excess of 112% of the net shipping weight of the total quantity thereof manufactured by said producer during the calendar year 1940 for shipment to those countries (in the aggregate) which are listed in Schedule B-1, attached hereto and made a part hereof, as amended from time to time; or

(b) To Canada a number of any class or type of farm machinery and equipment and attachments and repair parts (as listed in Schedule B-2 attached hereto and made a part hereof, as amended from time to time) in excess of that number obtained by multiplying the quota percentage designated in said Schedule B-2 for such class or type by the number shipped by said producer to Canada during the calendar year 1940.

Provided, That each said producer shall file reports on all such shipments as required by paragraph (f) (2); and *Provided further*, That this order and all transactions affected thereby shall be subject to all rules and regulations governing export control issued by the Board of Economic Warfare pursuant to the powers and functions vested therein by section (1) (a) (1) of the Executive Order No. 8900 of September 15, 1941, as amended; to the "Proclaimed List of Certain Blocked Nationals" issued from time to time pursuant to the authority contained in Proclamation No. 2497 of July 17, 1941; and to the rules and regulations of all Government departments which may be now or hereafter authorized to regulate exports to foreign countries.

¹ 7 F.R. 34, 2504, 2787, 3713, 4647.

(iv) Sell in the continental United States, or export to foreign countries or to territories and possessions of the United States including the Philippine Islands, any farm machinery and equipment or attachments and repair parts which is in excess of the quantities authorized to be manufactured for such sale or export by the provisions of (i), (ii) and (iii) above: *Provided*, That nothing herein shall prevent the sale or export by such producer of any farm machinery and equipment or attachments and repair parts which were completely manufactured or completely fabricated and ready for shipment in knock-down form on October 31, 1941.

(2) Every producer shall wherever possible use conservation measures, such as substitution, redesign, and respecification, to eliminate scarce material normally used; and shall plan his production schedule in accordance with the relative urgency and national need for different kinds of farm machinery and equipment and attachments and repair parts, subject to the provisions of this order. The War Production Board may from time to time require the elimination or diminution of the use of any material, with or without the substitution of other materials, and may specify the use in the manufacture of farm machinery and equipment and attachments and repair parts to which specific types of material can be put.

(d) *Records*. All persons affected by this order shall keep and preserve for not less than 2 years accurate and complete records concerning inventories, purchases, production, and sales.

(e) *Audit and inspection*. All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(f) *Reports*. (1) All persons affected by this order as amended shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time request.

(2) Each producer affected by paragraph (c) (1) (iii) of this Order as amended shall file:

(i) By the 10th day after May 18, 1942, a report on Form PD-388 of his shipments during the calendar years 1940 and 1941 to each country listed in Schedule B-1 (and to Canada), to which he made such shipments during those years, and also of his shipments during the calendar months of November 1941, December 1941, January 1942, February 1942, March 1942, and April 1942, to each foreign country (including Canada and all countries listed on Schedule B-1), and

(ii) By the 10th day of each month thereafter a report on Form PD-387 of his shipments during the preceding month (starting with May 1942) to each such foreign country.

(g) *Violations*. Any person who willfully violates any provision of this Order, or who, in connection with this order, willfully conceals a material fact or fur-

nishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such Person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(h) *Appeal*. Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this order would disrupt or impair a program of conversion from nondefense to defense work, may apply for relief by addressing a letter to the War Production Board setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(i) *Communications*. All reports to be filed, appeals and other communications concerning this order shall be addressed to the War Production Board, Farm Machinery and Equipment Branch, Washington, D. C., Ref.: L-26.

(j) *Revocation or modification*. This order and Schedule A may be revoked, amended, or modified by the War Production Board at any time as to all or any one or more producers affected hereby, and by special directions issued to any producer, the War Production Board may change any quota of such producer.

(k) *Expiration date*. This order shall expire November 1, 1942. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 14th day of July 1942,

J. S. KNOWLSON,
Director of Industry Operations.

SCHEDULE A-1¹

FARM MACHINERY AND EQUIPMENT BRANCH,
DIVISION OF INDUSTRY OPERATIONS, WAR
PRODUCTION BOARD

Quotas for the Production During the Period November 1, 1941, to October 31, 1942, of Farm Machinery, Equipment, Attachments and Repair Parts Therefor for Sale in the United States

INSTRUCTIONS FOR USING SCHEDULE A-1

(1) The quota for most of the items of farm machinery and equipment listed herein is expressed in terms of designated percentages of the number of items produced by a manufacturer during the calendar year 1940 or sold by him during that year, as he may elect, but, as provided in Limitation Order L-26 as amended, once the election is made the manufacturer must adhere to that basis for all items to be produced by him during the period November 1, 1941, to October 31, 1942.

(2) Whenever two or more items are bracketed together and only one quota percentage is assigned thereto, such percentage shall be applied to the total obtained by adding the number of each such bracketed item produced in 1940. The quota thus arrived at may consist entirely of any one of such bracketed items or, at the producer's election, may be split up between any or all such item or items manufactured, but in no event shall the total quantity of such item or items manufactured between November 1, 1941, and October 31, 1942, exceed such specified percentage. For example, suppose a producer manufactured or sold during 1940 the following units under Group 14:

Group 14: Domestic Water System, Pneumatic

	Quota (percent)
Division 1: Deep well, all sizes	
Item 1. Deep well, reciprocal.....	250
Item 2. Deep well, jet pumps.....	400
Division 2: Shallow well	
Item 1—Under 250 gal. per hour.....	620
Item 2. 250-499 gal. per hour.....	1,110
Item 3. 500 gal. per hour and over.....	130
Total.....	2,510

He should apply the percentage shown on Schedule A-1 opposite the brackets (95% for these items) to the above total which results in 2,385 Units. This number is his total 1942 quota for the above five items. He may build 2,385 units of any one of the five items listed, or split

¹Originally issued March 30, 1942.

this number any way he chooses into two, three, four, or all five of the types of pumps listed above, provided the total production of all five does not exceed 2,385 units.

Example	1st option	2d option	3d option	4th option
Division 1:				
Item 1. Reciprocal.....	2,385	1,000	237	580
Item 2. Jet Pumps.....				
Division 2:				
Item 1. Under 250 Gal.....		1,000	650	285
Item 2. 250-499 Gal.....			1,055	121
Item 3. 500 and over.....				2,005
Total.....	2,385	2,385	2,385	2,385

(3) The quota percentages for Attachments and Repair Parts (and a few other items) are expressed in terms of total weight of all metals and rubber, rather than in units.

NOTE: The opportunity mentioned in (1) above to elect between total production or total sales during 1940 is of course applicable to items covered in (2) and (3) and similarly binding upon the manufacturer for all items in his line.

CONSOLIDATIONS—SCHEDULE A-1**Group 1: Planting, Seeding and Fertilizing Machinery**

	Quota (percent)
Division 1: Corn and cotton planters 1 horse	
Item 1. One horse single row (Corn).....	53
Item 2. One horse single row (Corn & Cotton).....	58
Division 2: Corn and cotton planters, 2 horse & tractor	
Item 1. Two row horse drawn.....	70
Item 2. Two row tractor drawn or mounted.....	70
Item 3. Three and four row tractor drawn or mounted.....	70
Item 4. Two horse single row.....	70
Item 5. Two row, horse drawn.....	70
Item 6. Two row tractor drawn or mounted.....	70
Item 7. Three & four row, horse or tractor.....	70
Division 3: Potato planters	
Item 1. Horse or tractor drawn.....	72
Division 4: Transplanters	
Item 1. One & two row, horse or tractor drawn.....	124
Division 5: Listers (middle busters without planting attachments)	
Item 1. 1 Row horse or tractor drawn.....	83
Item 2. 2 Row horse or tractor drawn.....	83
Division 6: Listers with planting attachments	
Item 1. 1 Row horse or tractor drawn.....	83
Item 2. 2 Row horse or tractor drawn.....	83
Division 7: Beet drills	
Item 1. Horse or tractor drawn.....	100
Division 8: Grain drills	
Item 1. Horse or tractor drawn.....	73
Division 9: Garden planters	
Item 1. Hand.....	101
Item 2. Horse or tractor drawn.....	121
Division 10: Broadcast seeders	
Item 1. Wheel, horse drawn.....	68
Item 2. Endgate.....	73
Item 3. Hand (wheelbarrow and other).....	100
Division 11: Fertilizing distributors	
Item 1. Horse or tractor drawn.....	83

Group 1: Planting, Seeding and Fertilizing Machinery—Continued

	Quota (percent)
Division 12: Lime spreaders (sowers)	
Item 1. Wheel type, horse or tractor drawn	83
2. Endgate type	83
Division 13: Manure spreaders	
Item 1. 4 wheel, horse or tractor drawn	100
2. 2 wheel, tractor drawn	100
Division 14: Other planting, seeding, and fertilizing machinery	
Item 1. Other planting, seeding, and fertilizing machinery expressed in terms of total weight of all metals and rubber	88
Division 15: Attachments and parts	
Item 1. Attachments and parts for all items in Group No. 1 expressed in terms of total weight of all metals and rubber	140

Group 2: Plows and Listers

Division 1: Moldboard plows	
Item 1. Horse drawn, walking one horse	65
Type 1. Steel bottom	65
2. Chilled bottom	65
2. Walking, two horse and larger	65
3. Sulky, one bottom	65
4. Gang, two bottom and larger	65
5. Tractor drawn or mounted:	
Type 1. One bottom	69
2. Two bottom	69
3. Three bottom	69
4. Four bottom	69
5. Five and larger	69
Division 2: Disc plows, horse drawn	
Item 1. Single disc and larger	73
Division 3: Disc plows, tractor drawn	
Item 1. Two disc	72
2. Three disc	73
3. Four disc	57
4. Five disc	73
5. Six disc and larger	71
Division 4: One way disc plows or tillers	
Item 1. One way disc plows or tillers	67
Division 5: Listers (middle busters without planting attachments)	
See Group 1, Division 5.	
Division 6: Subsoil plows	
Item 1. Subsoil plows	50
Division 7: Plowstocks	
Item 1. Plowstocks	72
Division 8: Steel plow shapes or shares	
Item 1. Steel plow shapes or shares and other plows and listers expressed in terms of total weight of all metals and rubber	140
Division 9: Attachments and parts	
Item 1. Attachments and parts for all items in Group 2, expressed in terms of total weight of all metals and rubber	140

Group 3: Harrows, Rollers, Pulverizers and Stalk Cutters

Division 1: Harrows	
Item 1. Spike tooth sections, horse or tractor drawn	71
2. Spring tooth sections, horse or tractor drawn	73
3. Disc harrows	78
Division 2: Smooth land rollers	
Item 1. Smooth land rollers	61
Division 3: Soil pulverizers and packers	
Item 1. Soil pulverizers and packers	67
Division 4: Stalk cutters	
Item 1. Stalk cutters	89
Division 5: Other harrows and rollers	
Item 1. Other harrows and rollers expressed in terms of total weight of all metals and rubber	72

Group 3: Harrows, Rollers, Pulverizers and Stalk Cutters—Continued

	Quota (percent)
Division 6: Attachments and parts	
Item 1. Attachments and parts for all items in Group No. 3 expressed in terms of total weight of all metals and rubber	120

Group 4: Cultivators and Weeders

Division 1: Cultivators	
Item 1. Horse drawn	
Type 1. One horse (all types)	68
2. One row, walking (two horse)	69
3. One row, riding (two horse)	69
4. Two row riding	69
2. Tractor drawn or mounted	
Type 1. One row tractor drawn or mounted	90
2. Two row tractor drawn or mounted	90
3. Three & four row tractor drawn or mounted	78
4. Five & six row tractor drawn or mounted	78
3. Beet cultivators, horse or tractor drawn or mounted	100
4. Field cultivators, horse or tractor drawn	77
5. Garden cultivators (hand)	111
Division 2: Rotary hoes, horse or tractor drawn	
Item 1. Rotary hoes, horse or tractor drawn	69
Division 3: Rod weeders, horse or tractor drawn	
Item 1. Rod weeders, horse or tractor drawn	71
Division 4: Other cultivators and weeders	
Item 1. Other cultivators and weeders expressed in terms of total weight of all metals and rubber	98
Division 5: Attachments and parts	
Item 1. Attachments and parts for all items in Group No. 4 expressed in terms of total weight of all metals and rubber	150

Division 1: Grain binders	
Item 1. Grain binders	75
Division 2: Rice binders	
Item 1. Rice binders	100
Division 3: Combines (harvester-threshers)	
Item 1. Width of cut, 6 feet and under	92
2. Width of cut, over 6 feet, including 10 feet	70
3. Width of cut, over 10 feet	70
Division 4: Corn binders	
Item 1. Corn binders (row binders) horse or tractor drawn	76
Division 5: Corn pickers (pull and mounted type)	
Item 1. One row	134
2. Two row	86
Division 6: Ensilage harvesters (corn, hay)	
Item 1. Ensilage harvesters (corn, hay)	65
Division 7: Potato diggers	
Item 1. Walking plow type	100
2. Other, horse or tractor drawn	78
Division 8: Pea and bean harvesters	
Item 1. Pea and bean harvesters	105
Division 9: Beet lifters, horse or tractor drawn	
Item 1. Beet lifters, horse or tractor drawn	130
Division 10: Other harvesting machinery	
Item 1. Other harvesting machinery expressed in terms of total weight of all metals and rubber	99

Group 5: Harvesting Machinery—Continued

Subchapter B—Director General for Operations

PART 944—REGULATIONS APPLICABLE TO
OPERATION OF THE PRIORITIES SYSTEM

[Interpretation 1 of Priorities Regulation 3]

The following official interpretation is hereby issued with respect to Priorities Regulation No. 3, as amended (§ 944.23):¹

(a) *Extension of ratings by prime contractors.* When a delivery to be made directly to the Army, Navy, or other war

agency by a prime contractor has been rated on a PD-3A Preference Rating Certificate, and the prime contractor uses such rating to obtain delivery of material to him, such use of the rating is an "extension" rather than an "application" of the rating within the meaning of Priorities Regulation No. 3, as amended. The "assignment" and the "application" of the rating are deemed to occur simultaneously upon issuance of the PD-3A certificate.

It follows that, in such cases, the prime contractor comes within the provisions of paragraph (c) of Regulation No. 3 which permits, within certain limits, the extension of a rating for purposes of replacing material in inventory or obtaining operating supplies for the processing of materials to the delivery of which the rating is extended.

It should be noted, however, that under Priorities Regulation No. 11,² persons subject to the Production Requirements Plan are not, in general, permitted to extend any ratings, and that the foregoing interpretation does not relieve from this restriction those prime contractors who qualify or are required to qualify under the plan. It should also be noted that subparagraph (2) of paragraph (c), concerning the extension of ratings to operating supplies, is not available to persons using more than \$5,000 per quarter of metals in the forms indicated.

(b) *Previous forms of certification still valid.* The form of certification for use in applying or extending a rating prescribed by paragraph (d) of Regulation No. 3 is not mandatory. It is permissible to use, instead, the form of certification prescribed in the particular preference rating certificate or order which assigned the preference rating in question.

(c) *Certification with respect to orders previously placed.* Paragraph (d) of Regulation No. 3 provides that the certification applying or extending a preference rating is to be endorsed on or attached to the contract or purchase order. If the order has been placed before the rating is applied or extended, it is permissible to furnish the certification on a separate document specifically identifying the purchase order in question. Such a document may refer to one or more different purchase orders.

(d) *Application or extension by telegraph.* When a purchase order is placed by telegraph and it is permissible to apply or extend a rating, the substance of the required certification may be contained in the telegram. The requirements for manual signature or authorization under Priorities Regulation No. 7³ (§ 944.27) will

be satisfied if the outgoing telegram is signed or authorized in the manner provided in that regulation.

(e) *Acceptances of Orders need not be filed.* Paragraph (d) (2) of the regulation states that the certification may be used "in lieu of furnishing any copy of any preference rating order." This eliminates not only the requirement of furnishing a copy to the person with whom the order is placed but also the requirement of some preference rating orders for filing an accepted copy with the Director General for Operations or his predecessor, the Director of Priorities.

(f) *Additional information required.* The standard form of certification may be used in lieu of information previously required with respect to the grade of the rating or the identity of the preference rating order or certificate assigning the rating. Paragraph (d) (4), however, specifies that any other information required by the terms of any applicable order must still be furnished if available to the person placing the purchase order. Such additional information includes, where available, Government code numbers and contract numbers required by the form of certification appearing on Preference Rating Certificate PD-3A. Likewise the requirements with respect to filing copies of purchase orders which extend ratings originating on PD-3A certificates remain applicable.

The additional information required does not include information which merely serves as an additional identification of the preference rating order assigning the rating, such as the words "Material for Maintenance, Repair, or Operating Supplies" specified in Order P-100⁴ or the words "Material for Emergency Repairs of Plumbing Equipment or Heating Equipment" required by Order P-84.⁵ The ratings assigned by both of these preference rating orders may now be applied or extended merely by complying with Regulation No. 3. (F.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 320; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 14th day of July, 1942.

AMORY HOUGHTON,
Director General for Operations.

Chapter XI—Office of Price Administration
PART 1400—TEXTILE FABRICS: COTTON,
WOOL, SILK, SYNTHETICS AND MIX-
TURES

[Amendment 6 to Maximum Price Regu-
lation 118¹]

COTTON PRODUCTS

A statement of the considerations in-
volved in the issuance of this amend-
ment has been issued simultaneously
herewith and has been filed with the
Division of the Federal Register.

New paragraph (e) is added to
§ 1400.106 and new paragraphs (a) (4)
and (d) (24) through (d) (28) are added
to § 1400.118, as set forth below; and in
§ 1400.118 (b) (3) the phrase "within 30
days" is revoked.

§ 1400.106 *War procurement.* * * *

(e) Any person who has entered into
or proposes to enter into a contract with
a war procurement agency, a contractor,
or a subcontractor and who believes that
a maximum price established by this
Maximum Price Regulation No. 118 im-
pedes or threatens to impede production
of any cotton products which are essen-
tial to the war program and which are
or will be the subject of such contract
or subcontract, may file an application
for adjustment of the maximum price
established by Maximum Price Regula-
tion No. 118, in accordance with Proce-
dural Regulation No. 6² issued by the
Office of Price Administration. Upon
the filing of an application for adjust-
ment and pending the issuance of an
order granting or denying such applica-
tion, contracts or subcontracts may be
entered into, or offered to be entered into,
and deliveries may be made, at the price
requested in such application: *Provided*,
That final settlement shall be made in
accordance with the order and, if re-
quired, refunds shall be made.

§ 1400.118 *Specific and formula maxi-
mum prices for certain cotton products;
construction reports.* (a) The effective
dates of the maximum prices set forth
in (d) below are as follows:

(4) For corduroy, cottonades and
whipcords, terry products, and carded-
yarn fancies: July 13, 1942; for blankets,
blanketing, and blanket-robe cloth: May
4, 1942.

(d) * * *

(24) *Corduroy*—(i) *Definition.* As
used herein, the term "corduroy" means
a filling pile fabric made entirely of cot-
ton with ribs, each cut or to be cut by
an individual knife, running parallel to
the selvage.

(ii) *Grey uncut corduroy.* (a) The
maximum prices for grey uncut corduroy
set forth below shall be subject to terms
of net 10 days, f. o. b. mill.

(b) The maximum prices for grey un-
cut corduroy shall be:

(27) Blankets, blanketing, and blanket-robe cloth. (i) The maximum prices established herein for blankets, blanketing, and blanket-robe cloth shall apply to such products regardless of whether they are made in a cotton or in a woolen or worsted mill.

(ii) The maximum prices for blankets, blanketing, and blanket-robe cloth set forth below are subject to terms of 2 per cent 10 days, 60 extra, with anticipation for payment allowed (a) at the rate of 3 per cent per annum for any payment made prior to July 13, 1942, and (b) at the rate of 6 per cent per annum for any payment made on or after July 13, 1942. Where longer terms are granted, no extra charge shall be made for the extension of credit and anticipation shall be allowed at the rates specified immediately above.

(iii) No seller shall discontinue or alter to the prejudice of a purchaser any discount or service granted or rendered to purchasers of the same general class during the period in which it opened its 1942 line. Section 1400.108 (b) (3) shall not apply to sales of blankets, blanketing, and blanket-robe cloth.

(iv) The maximum price for seconds shall be not more than 90 per cent of the base maximum prices set forth in (viii) and (ix) below.

(v) In addition to the base maximum prices set forth in (viii) and (ix) below, additional put-up charges may be made as follows:

	Cents per blanket
For bagging of blankets.....	3
For boxing of blankets.....	20

Provided, That where the base maximum price is predicated on one type of put-up the allowable charge hereunder for such put-up shall be deducted from the base maximum price before the allowable charge for the actual put-up furnished is added.

(vi) (a) In addition to the base maximum prices set forth in (viii) and (ix) below, the charges set forth in (b), (c), and (d) below may be made for binding: Provided, That where the base maximum price is predicated on one type of binding, the allowable charge hereunder for such binding shall be deducted from the base maximum price before the allowable charge for the actual binding furnished is added.

(b) The following are maximum charges for the binding of blankets, ends only.

	Sateen	Rayon taffeta	Acetate satin	Reversible rayon satin
1".....	Cents 8	Cents 10	Cents 12	
1 1/2".....	19	12 1/2	15	
2".....	12	15	18	
2 1/2".....	15	18 1/2	22 1/2	42 1/2

3 1/2".....	25	31 1/2	37 1/2	
4".....	30	37 1/2	45	

(c) For binding of blankets all around (i. e., ends and sides) the maximum charge shall be $2\frac{1}{2}$ times the maximum charges shown in (b) above.

(d) For binding with mortised corners, a charge of $7\frac{1}{2}$ cents per blanket higher than the maximum charges provided for in (b) and (c) above may be made.

(vii) For stitching or hemming a seller may make a charge in addition to the base maximum prices set forth in (viii) and (ix) below: *Provided*, That such charge may be made only if an extra charge was made therefor at the opening of the 1942 season and shall not exceed

the charge then made for the same type of stitching or hemming.

(viii) The base maximum price for blankets, blanketing, or blanket-robe cloth of any style not specifically listed in (ix) below shall be determined in accordance with the following classification: *Provided*, That in the event that a seller desires to manufacture or sell a blanket, blanketing, or blanket-robe cloth for which no maximum price is established by (viii) or (ix) below, the maximum price shall be a price specifically authorized by the Office of Price Administration upon application by the seller.

§ 1364.62 *Definitions.* (a) * * *
(2) "Seller" means any person who sells, supplies, disposes, barter, exchanges, transfers and delivers, and contracts and offers to do any of the foregoing. Where a person makes sales from more than one place of business, each separate place of business of such person shall be deemed to be a separate seller, except that all places of business owned or controlled by the same person, and selling in the same market area shall be regarded as a single seller. Each shipping point from which a car route or car routes originate shall be deemed a separate seller. If more than half of the sales at any one place of business are sales of kosher cuts or of cuts derived from kosher carcasses, or if more than

half of such sales are to the hotel and restaurant trade, the sales at such place of business shall not be included with sales at any other place of business in computing maximum prices.

PART 1499—COMMODITIES AND SERVICES

[Order 24]

[Maximum Prices Authorized Under § 1499.3 (b) of the General Maximum Price Regulation¹]

MARTIN DENNIS COMPANY

The Martin Dennis Company, 859 Summer Avenue, Newark, New Jersey, has made application pursuant to § 1499.3 (b) of the General Maximum Price Regulation for specific authorization to determine the maximum price for a commodity which cannot be priced under § 1499.2 thereof. Due consideration has been given to the application, and an Opinion in support of this order has been issued simultaneously herewith and has been filed with the Division of the Federal Register. For the reasons set forth in the Opinion, and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and pursuant to § 1499.3 (b) of the General Maximum Price Regulation issued by the Office of Price Administration, it is ordered:

§ 1499.61 *Approval of maximum prices for prepared chromium containing residue from sodium chromate process for sale by the Martin Dennis Company.* (a) On and after July 13, 1942, the Martin Dennis Company of Newark, New Jersey, may sell and deliver and offer, agree, solicit, and attempt to sell and deliver to any persons, and such persons may purchase the dried, finely pulverized, airfloated chromium containing residue remaining from the roasting of chromium ore in the production of sodium chromate after extraction of the sodium chromate, when packed in paper bags, at prices no higher than \$15.00 per ton, f. o. b. plant.

(b) This order No. 24 may be revoked or amended by the Price Administrator at any time.

(c) This Order No. 24 (§ 1499.61) shall become effective July 13, 1942.

(Pub. Law 421, 77th Cong.)

Issued this 11th day of July 1942.

PART 1381—SOFTWOOD LUMBER

[Revised Price Schedule No. 19—Southern Pine Lumber]

The title, preamble, and §§ 1312.26 to 1312.34, inclusive, are amended to read as follows:

[Maximum Price Regulation 19]

SOUTHERN PINE LUMBER

In the judgment of the Price Administrator, the prices of those items of Southern pine lumber not previously subject to Revised Price Schedule No. 19¹ have risen in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of these items and species prevailing between October 1 and October 15, 1941. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this Regulation.

In the judgment of the Price Administrator, the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. In the computation of the maximum prices, costs of distribution, including wholesaler's functional discounts and commission salesmen's commissions prevailing prior to this Regulation have been taken into account and the prices have been so constructed as to permit the manufacturers to continue these discounts and commissions. A statement of the considerations involved in the issuance of this Regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,² issued by the Office of Price Administration, Maximum Price Regulation No. 19 is hereby issued.

Sec.

1381.201 Maximum prices for Southern pine lumber.
1381.202 Less than maximum prices.
1381.203 Conditional agreements.
1381.204 Evasion.
1381.205 Records and reports.

AUTHORITY: §§ 1381.201 to 1381.212, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1381.201 *Maximum prices for Southern pine lumber.* On and after July 18, 1942, regardless of any contract or other obligation, no person shall sell or deliver any Southern pine lumber for domestic or export use, and no person shall buy or receive in the course of trade or business any Southern pine lumber:

(a) At prices higher than the maximum prices set forth in Appendix A, § 1381.212, where the shipment originates at a mill.

(b) At prices higher than the maximum prices set forth in Appendix A, § 1381.212, plus \$3.50 per thousand feet board measure, where a shipment originating at a mill satisfies all of the tests of a "direct-mill retail sale" as set forth in § 1381.208 (a) (10).

(c) At prices higher than the maximum prices established by the General Maximum Price Regulation,³ where the shipment originates at a distribution yard, whether wholesale or retail.

(d) No person shall offer, agree, solicit, or attempt to do any of the foregoing.

(e) The provisions of this Maximum Price Regulation No. 19 shall not be applicable to sales or deliveries of Southern pine lumber to a purchaser, if prior to July 18, 1942, such lumber had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

§ 1381.202 *Less than maximum prices.* Lower prices than those set forth in Appendix A, § 1381.212, may be charged, demanded, paid or offered.

§ 1381.203 *Conditional agreements.* No seller subject to this Maximum Price Regulation No. 19 shall enter into an agreement permitting the adjustment of the price of Southern pine lumber to prices which may be higher than the maximum prices in effect upon the date of the agreement: *Provided*, That if a petition for amendment has been duly filed, and such petition requires extensive consideration the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.

§ 1381.204 *Evasion.* (a) The price limitations set forth in this Maximum Price Regulation No. 19 shall not be evaded, whether by direct or indirect

methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to Southern pine lumber, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

(b) Specifically, but not exclusively, the following practices are prohibited:

(1) Unnecessarily routing lumber through a distribution yard, whether wholesale or retail;

(2) Unreasonably refusing to ship except in mixed cars or trucks, or in specified or restricted random lengths, or under other circumstances entitling the seller to a premium;

(3) Quoting prices above the maximum prices on condition that the buyer take a mixed car or truck;

(4) Making charges for delivery which exceed the actual cost to the seller of such delivery except as otherwise provided in § 1381.212 (d);

(5) Falsely or wrongly grading or invoicing lumber;

(6) Grading as a special grade lumber which can be graded as a standard grade;

(7) Selling as specified lengths a shipment of lumber which is substantially equivalent to standard or random lengths, or reselling as specified lengths a shipment purchased by the seller as standard or random lengths;

(8) Breaking up an order which would normally be a single order into a series of smaller orders in order to reduce the quantity below the limitations of § 1381.208 (a) (10);

(9) Refusing to sell except on a delivered basis;

(10) Quoting a delivered price on the basis of estimated weights higher than those permitted by § 1381.212 (d).

§ 1381.205 *Records and reports.* (a) On and after July 18, 1942, every person who, during any calendar month, offers or agrees to sell, sells, or delivers, or offers or agrees to buy, buys or receives a total of 34,000 pounds or more of Southern pine lumber in the course of trade or business, shall keep for inspection by the Office of Price Administration for a period of not less than two years, a complete and accurate record of every such offer, agreement, purchase, sale or delivery, showing the date thereof, the name and address of the buyer and the seller, the price paid or received, and the quantity, size, grade, specifications and condition of seasoning of the lumber in each such purchase or sale, and whether it is Shortleaf Yellow pine or Longleaf Yellow pine as defined in § 1381.208.

(b) Such persons shall keep such other records in addition to or in place of the records required in paragraph (a) of this section and shall submit such reports to the Office of Price Administration as that Office may from time to time require or permit.

§ 1381.206 *Enforcement.* (a) Persons violating any provision of this

Maximum Price Regulation No. 19, are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 19, or any price schedule, regulation, or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field, state, or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1381.207 *Petition for amendment.* Persons seeking any modification of this Maximum Price Regulation No. 19, or any adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1,⁴ issued by the Office of Price Administration.

§ 1381.208 *Definitions.* (a) This Maximum Price Regulation No. 19 and the terms appearing therein, unless the context otherwise requires, shall be construed as follows:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons or legal successor or representative of any of the foregoing and includes the United States, or any government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Southern pine" means all of the species included in the definitions of Shortleaf Yellow pine and Longleaf Yellow pine.

(3) "Shortleaf Yellow pine" means the species of shortleaf pine (*Pinus eschschiana*), loblolly pine (*Pinus taeda*), slash pine (*Pinus caribaea*), such longleaf pine (*Pinus palustris*) as contains less than six annual rings per inch and less than one-third summerwood, or any other *Pinus* species, except Longleaf Yellow pine as defined in paragraph (a) (4) of this section, known commercially as "Southern pine".

(4) "Longleaf Yellow pine" means the botanical species of *Pinus palustris* which contains not less than six annual rings per inch and not less than one-third summerwood.

(5) "Mill" means a manufacturing plant, concentration yard, or other establishment which processes by sawing or planing at least 25 percent of the volume of Southern pine logs or lumber purchased or received by it and which sells less than 75 percent of the volume of its Southern pine lumber to consumers or contractors in less than carload quantities.

(6) "Distribution yard" means a wholesale or retail lumber yard which purchases or receives Southern pine logs or lumber for purposes of sorting, storing, and resale or redistribution, which regularly maintains a stock of lumber, and which (1) processes, by sawing or planing, less than 25 percent of the vol-

⁴ *Supra*, note 2.

ume of such logs or lumber so purchased or received by it, or (ii) regardless of the percentage of such processing, sells more than 75 percent of the volume of its Southern pine lumber to consumers or contractors in less than carload quantities.

(7) A shipment is deemed to "originate at a mill" when the lumber reaches the purchaser without having been stored as an integral part of the yard stock of a distribution yard as defined in subparagraph (6) of this paragraph.

(8) A shipment is deemed to "originate at a distribution yard", whether wholesale or retail, when, and only when, the shipment is made out of a stock of lumber which was an integral part of the seller's stock at the time the sale was made.

(9) "Volume" means the board foot measure of lumber processed from logs or other lumber, or sold, as the case may be, within six months immediately prior to the transaction subject to this Maximum Price Regulation No. 19.

(10) "Direct-mill retail sale", for the purpose of determining whether the \$3.50 mark-up provided in § 1381.201 (b) may be added, means a sale in which the shipment originates at a mill, and which satisfies all of the following tests:

(i) It must be a sale to a consumer or contractor for use in building, construction, remodeling, repair, maintenance or fabrication, and must not be a sale for resale in substantially the same form.

(ii) Where a shipment is by rail it must be a sale in less than carload quantity. Where shipment is by water or by truck it must be a sale of not more than 18,000 feet board measure. For the purpose of this subparagraph the size of the sale is determined by the size of the order, and the size of the order is determined by the over-all quantity involved in a single transaction.

(iii) It must be accompanied by all of the following services: delivery to the job site, when so ordered by the purchaser, and in such quantities and at such times as the purchaser specifies; tallying and checking at destination; the privilege of exchanging goods and returning unused material; and the readiness and ability of the seller immediately to replace deficiencies and adjust complaints from stocks kept on hand for the purpose.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1381.209 *Applicability of General Maximum Price Regulation.*³ Except as

provided in § 1381.201 (c), the provisions of this Maximum Price Regulation No. 19 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries for which maximum prices are established by this Regulation.

§ 1381.210 *Export sales.* The maximum price at which a person may export Southern pine lumber shall be determined in accordance with the provisions of the Maximum Export Price Regulation⁴ issued by the Office of Price Administration.

On F. A. S. sales to Lend-Lease Administration, British Purchasing Commission, British Air Commission, and other government agencies or their contractors, an addition of \$3.50 per M Ft. may be made for marking, bundling, assembling, switching, unloading, tally-

ing, dock insurance and other services necessary to the proper dispatch of offshore cargo of lumber.

§ 1381.211 *Effective date.* Maximum Price Regulation No. 19 (§§ 1381.201 to 1381.212, inclusive) shall become effective July 18, 1942: *Provided*, That firm commitments entered into prior to July 18, 1942, for any items of Southern pine lumber subject to Revised Price Schedule No. 19 as it stood before being superseded by this Regulation, and in conformity with its terms, may be completed according to the contract if delivery is made before November 1, 1942.

§ 1381.212 *Appendix A: Maximum prices for Southern pine lumber where shipment originates at a mill.* (a) The maximum prices for Shortleaf Yellow pine lumber f. o. b. mill per one thousand feet board measure where shipment originates at the mill, shall be as follows:

Additions and deductions per 1,000 feet board measure

For working:

1. Rough, B and better, deduct \$3.00.
2. Rough, C, deduct \$2.00.
3. S1s, s2s, s2s and matched, shiplap, or any other dressing, standard or thinner, add \$2.00.
4. Ripping or resawing, add \$1.00 for each cut.
5. Casing, base, jambs, aprons and pulley stiles, add \$7.50.
6. Nosed stepping, add \$3.00.
7. Sanding one face, add \$3.00.
8. Wrapping, add \$5.00.

For grade:

9. A, add \$5.00 to B and better prices.

For condition:

10. Air dried, stain no defect, deduct \$6.00.
11. Air dried, stain a defect, deduct \$4.00.
12. Anti-stain treatment (any form), add 50¢ to air dried prices, but not to kiln dried prices.
13. "Special soft texture finish," add as provided in paragraph (e) of this section.

For size:

14. 13" and wider, add \$3.50 per inch to 12" prices.
15. Extra standard thickness, thicker than American Lumber Standards, add \$1.00.
16. Where the buyer requires restricted random widths, each width shall be invoiced separately at the specified width price.

For length:

17. "Short finish":
 - (a) 4' length, deduct \$15.00 from standard length prices.
 - (b) 6' length, deduct \$10.00 from standard length prices.
18. Where required by the buyer for cutting any specified exact length, except standard lengths, add \$1.00 where a tolerance of not more than 1/4" is allowed; add \$2.00 where a tolerance of not more than 1/2" is allowed.

Additions and deductions per 1,000 feet board measure

- For working:
1. Rough, deduct \$1.00.
 2. Ripping or resawing, add \$1.00 for each cut.
 3. End-matching, add \$2.00.
 4. Barn siding, or any other dressing, add \$2.00.
- For grade:
5. 85% heart facial area, add \$6.00 or for 85% heart cubical content, add \$1.00.
- For condition:
6. Anti-stain treatment (any form), add 10¢ to air dried prices, but not to kiln dried prices.
 7. Green, deduct \$2.00.
 8. Kiln dried, add \$1.00.
- For size:
9. 5/4, 6/4, and 7/4, No. 1 and No. 2 common, add \$4.00.
 10. 5/4, 6/4, and 7/4, No. 3 common, add \$3.00.
 11. 5/4, 6/4, and 7/4, No. 4 common and dunnage, add \$2.00.
 12. Extra thickness, thicker than American lumber standards, add \$1.00.
 13. Where the buyer requires an average width, charge the specified width price for the required average width.
 14. Where the buyer requires restricted random widths, each width shall be labeled separately at the specified width price.
- For length:
15. Where a restricted standard length, 8' to 16' or longer is specified by the buyer, add \$1.00.
 16. Where a restricted standard length, 16' to 20' or longer is specified by the buyer, add \$2.00.
 17. Where required by the buyer, for cutting to any specified exact length, except standard length, add \$1.00 where a tolerance of not more than 1/4" is allowed; add \$2.00 where a tolerance of not more than 3/4" is allowed.
 18. Where the buyer requires an average length, other than 14', charge the price for the specified length corresponding to the average length required. Where an average of 14' is required, charge the 17' price, provided that at least 50% of the shipment is 16' and longer.
 19. Odd or fractional lengths shall be counted and priced as next longest even length.

Additions and Deductions per 1,000 Feet Board Measure

For Working:

1. Rough, Deduct \$1.00.
2. Shiplap, Center Matched, Dressed and Matched or Grooved, or any Other Dressing, Add \$2.00.
3. Ripping or Resawing, Add \$1.00 for Each Cut.
4. Log Cabin Siding, Add \$6.50.
5. End-Matched and Center Matched, Add \$4.00.

For Grade:

6. No. 1 Dense Par. 414 Sizes 2 x 2 to 2 x 8" Inclusive, Add \$2.50 to No. 1 Common Prices.
7. No. 1 Dense Par. 414 Sizes 2 x 10 and 2 x 12", Add \$4.00 to No. 1 Common Prices.
8. No. 2 Dense Par. 417 Sizes 2 x 2 to 2 x 8" Inclusive, Add \$2.50 to No. 2 Common Prices.
9. No. 2 Dense Par. 417 Sizes 2 x 10 and 2 x 12", Add \$4.00 to No. 2 Common Prices.
10. No. 2 Medium Grain Par. 416 Sizes 2 x 2 to 2 x 8" Inclusive, Add \$1.00 to No. 2 on Common Prices.
11. No. 2 Medium Grain Par. 416 Sizes 2 x 10 and 2 x 12", Add \$3.00 to No. 2 Common Prices.
12. Sound and Square Edge, Add \$2.50 to No. 2 Common Prices.
13. 85% Heart Facial Area, Add \$5.00; or for 85% Heart Cubical Content, Add \$4.00.

For Condition:

14. Anti-Stain Treatment (Any Form), Add \$.50 to Air Dried Prices, But Not to Kiln Dried Prices.
15. Green, Deduct \$2.00.
16. Kiln Dried, Add \$1.00.

For Size:

17. Extra Thickness, Thicker than American Lumber Standards, Add \$1.00.

For Length:

18. Where the buyer requires an average length other than 14', charge the specified length price for the specified length corresponding to the average length required. Where the buyer requires an average length of 14', charge the 16' price, provided, that at least 30% of the shipment is 16' and longer.
19. Where required by the buyer for cutting any specified exact length, except standard lengths, add \$1.00 where a tolerance of not more than 1/4" is allowed; add \$2.00 where a tolerance of not more than 1/2" is allowed.
20. Odd or fractional lengths, except 9', shall be counted and priced as the next longest even length.
21. Lengths longer than 24', add \$2.00 to the 24' price for each additional 2'.

Additions and deductions per 1,000 feet board measure

For working:

1. Rough, deduct \$2.00.
2. Grooved for splines, add \$1.00 to 2" prices, \$2.00 to 2 1/2" to 5" prices.
3. Beveling and/or outgauging, add \$4.00

For condition:

4. Air dried, add \$2.00 to 2" price, \$4.00 to 2 1/2" to 5" prices.
5. Kiln dried, add \$3.00 to 2" price, \$4.00 to 2 1/2" to 5" prices.
6. Anti-stain treatment (any form), add \$.50 to 2" air dried prices; \$1.00 to 2 1/2" to 5", air dried prices, but not to kiln dried prices.

For size:

7. Fractional thicknesses (non-standard), add \$3.00.
8. Odd or fractional widths shall be counted and priced as the next even wider width.

For length:

9. Lengths longer than 24', add \$2.00 to the 24' price for each additional 2'.
10. Odd or fractional lengths, except 9', shall be counted and priced as the next longer even length.

¹ Specifications for Car Material (Designated Above "A. A. R. Rules") Correspond to the Specifications Issued by the Association of American Railroads, as Set Forth in its Pamphlet M-907-33, Adopted, 1910; Revised, 1933.

Additions and Deductions per 1,000 Feet Board Measure

For Working:

1. Rough, Deduct \$2.00.
2. Where Material is required dressed two sides only, deduct \$1.00.

For Grade:

3. Edge Grain, Add \$15.00 to Select Price Only.
4. For Grade and Specifications Other than Those Contained in A. A. R. Rules, the Maximum Price Shall be the Price for the A. A. R. Grade and Specifications which Most Closely Correspond to the Grades and Specifications of the Car Material Item Involved in the Sale Governed by the Schedule.

For Length:

5. Odd and Fractional Lengths, Except 9', Shall be Counted and Priced as Next Longest Even Length.

For Inspection:

6. For Final Inspection at the Point of Destination Rather than at the Shipping Point, Add \$5.00.

15. Odd or fractional lengths, except 2' and 7', shall be counted and priced as next longest even length.
16. Where the buyer specifies an average length, charge the specified length price for the required lineal average.
17. Where the buyer specifies a cubic average, the price shall be that of the length in 12 x 12 required to equal the specified cubic average.

For condition:

18. Anti-stain treatment (any form) 3 x 3 to 10 x 10, add \$1.00; 3 x 12 and up, add \$2.00.
19. Kiln dried, 20% moisture, add \$4.00.
20. Air dried, 23% moisture, add \$4.00.

For size:

21. Fractional thickness, add \$3.00 to nearest listed thickness.
22. Fractional widths, price nearest even wider width.
23. 2" Timbers, Square Edge and Sound and grades above, add \$2.00 to the comparable 3" price, except for 2 x 14 and 2 x 16, add \$3.00.
24. Where the buyer specifies an average girth measurement, charge the price of specified size for the required girth average.

² Random widths are 5" to 12" inclusive, and must contain not less than 25% of 16" and/or 11" and 16% of 12" widths.

Additions and deductions per 1,000 feet board measure

For working:

1. Rough, B and better, deduct \$3.00.
2. Rough, C, deduct \$2.00.
3. S1S, S2S, S2S and matched, shiplap, or any other dressing, standard or thinner, add \$2.00.
4. Ripping or resawing, add \$1.00 for each cut.
5. Casing, base, jambs, apron and pulley stiles, add \$7.00.
6. Nosed stepping, add \$3.00.
7. Sanding one face, add \$3.00.
8. Wrapping, add \$5.00.

For grade:

9. A, add \$5.00 to B and Better prices.

For condition:

10. Air dried, A, B, and C, deduct \$5.00.
11. Anti-stain treatment (any form), add \$3 to air dried prices, but not to kiln dried prices.

For size:

12. 13" and wider, add \$3.50 per inch to 12" prices.
13. Extra standard thickness, thicker than American Lumber Standards, add \$1.00.
14. Where the buyer requires restricted random widths, each width shall be invoiced separately at the specified width price.

For length:

15. Short finish:
 - (A) 4' lengths, deduct \$25.00 from the standard length prices.
 - (B) 6' lengths, deduct \$15.00 from the standard length prices.
16. Where required by the buyer for cutting any specified exact length, except standard lengths, add \$1.00 where a tolerance of not more than 1/4" is allowed; add \$2.00 where a tolerance of not more than 1/2" is allowed.

² Random widths are 4" to 12" inclusive, and must contain not less than 20% of 10" and/or 11", and 10% of 12" widths in all shipments where the widths are not specifically restricted.

Additions and Deductions per 1,000 Feet Board Measure

For working:

1. Rough, deduct \$1.00.
2. Ripping or resawing, add \$1.00 for each cut.
3. End-matching, add \$2.00.
4. Barn siding, or any other dressing, add \$2.00.

For grade:

5. No. 1 common, 85 or 90% heart facial area, add \$20.00.
6. No. 2 common, 85 or 90% heart facial area, add \$12.00.

For condition:

7. Anti-stain treatment (any form), add 50¢ to air dried prices, but not to kiln dried prices.
8. Green, deduct \$2.00.
9. Kiln dried, add \$1.00.

For size:

10. 5/4, 6/4, and 7/4 No. 1 common, add \$7.00.
11. 5/4, 6/4, and 7/4 No. 2 and No. 3 common, add \$4.00.
12. 5/4, 6/4, and 7/4 No. 4 common and dunnage, add \$2.00.
13. Extra thickness, thicker than American lumber standards, add \$1.00.
14. Where the buyer requires an average width, charge the specified width price for the required average width.
15. Where the buyer requires restricted random widths, each width shall be invoiced separately at the specified width price.

For length:

16. Where a restricted standard length, 8' to 16' or longer is specified by the buyer, add \$1.00.
17. Where a restricted standard length, 10' to 16' or longer is specified by the buyer, add \$2.00.
18. Where required by the buyer, for cutting to any specified exact length, except standard lengths, add \$1.00 where a tolerance of not more than 1/2" is allowed, add \$2.00 where a tolerance of not more than 1/4" is allowed.
19. Where the buyer requires an average length, other than 14', charge the price for the specified length corresponding to the average length required. Where an average of 14' is required, charge the 16' price, provided that at least 30% of the shipment is 16' and longer.
20. Odd or fractional lengths shall be counted and priced as next longest even length.

Additions and Deductions per 1,000 Feet Board Measure

For working:

1. Rough, deduct \$1.00.
2. Ship lap, center-matched, dressed and matched, or grooved, or any other dressing, add \$2.00.
3. Rippling or resawing, add \$1.00 for each cut.
4. Log cabin siding, add \$0.50.
5. End-matched and center-matched, add \$4.00.

For grade:

6. Par. 333, add \$2.50 to No. 2 common prices.
7. 85 or 90% heart facial area, No. 1 and No. 2 common, sizes 2x2 to 2x8, add \$15.00.
8. 85 or 90% heart facial area, No. 1 and No. 2 common, sizes 2x10 and 2x12, add \$50.00.
9. Square edge and sound, add \$2.50 to No. 1 common prices.

For conditions:

10. Anti-stain treatment (any form), add 5¢ to air dried prices, but not to kiln dried prices.
11. Green, lengths 24' and under, deduct \$2.00.
12. Kiln dried, add \$1.00.

For size:

13. Extra thickness, thicker than American Lumber Standards, add \$1.00.

For length:

14. Where the buyer requires an average length other than 14', charge the specified length price for the specified length corresponding to the average length required. Where the buyer requires an average length of 14', charge the 16' price, provided, that at least 25% of the shipment is 16' and longer.
15. Where required by the buyer for cutting any specified exact length, except standard lengths, add \$1.00 where a tolerance of not more than 1/4" is allowed; add \$2.00 where a tolerance of not more than 1/2" is allowed.
16. Odd or fractional lengths, except 6', shall be counted and priced as the next longest even length.
17. Lengths longer than 24' apply the length differential provided for timbers longer than 24' as set forth in Table 17.

Additions and Deductions per 1,000 Feet Board Measure

For working:

1. S1S, S2S, S3S, and S4S, add \$2.00.
2. Ship lap or dressed and matched, add \$3.00.
3. Grooved two edges, add \$4.00.
4. Beveling and/or rounding, add \$4.00.

For conditions:

5. Air dried, add \$2.00 to 2' price, \$4.00 to 2 1/2" to 5' price.
6. Kiln dried, add \$3.00 to 2' price, \$4.00 to 2 1/2" to 5' price.
7. Anti-stain treatment (any form), add 5¢ to 2' air dried price, \$1.00 to 2 1/2" to 5', air dried price, but not to kiln dried price.

For size:

8. Fractional thicknesses (non-standard), add \$3.00.
9. Odd or fractional widths shall be counted and priced as the next even wider width.

For length:

10. Lengths longer than 24', add \$2.00 to the 24' price for each additional 2'.
11. Odd or fractional lengths, except 6', shall be counted and priced as the next longer even length.

For grade:

3. Edge grain, add \$15.00 to select prices only.

4. For grade and specification other than those contained in A. A. R. Rules, the maximum price shall be the price for the A. A. R. grade and specification which most closely corresponds to the grade and specifications of the car material item involved in the sale governed by the schedule.

For length:

5. Odd and fractional lengths, except 6', shall be counted and priced as next longest even length.

For inspection:

6. For final inspection at the point of destination rather than at the shipping point, add \$5.00.

Additions and Deductions per 1,000 Feet Board Measure

For working:

1. S1S, S2S, S3S, S4S, ship lap or T and G, add \$2.00.
2. Grooved two edges, add \$3.00.
3. Beveling and/or outgauging, add \$4.00.

For grade:

4. 1905 prime, under 8", add \$10.00 to merchantable, 05 prices.
5. 1905 prime, 8" and over, add \$8.00 to merchantable, 05 prices.
6. Square edge and sound, 85% heart facial area, make following additions to merchantable 1905 prices:

	24' and under	25' to 30'	31' to 40'
8 x 8 and under.....	\$10.00	\$14.00	\$20.00
Over 8 x 8.....	12.00	16.00	22.00

7. Square edge and sound, 90% heart facial area, add \$3.00 to 85% heart facial area, square edge and sound prices.
8. Square edge and sound, 85% heart girth, add \$10.00 to the 85% heart facial area, square edge and sound prices.
9. Square edge and sound, 90% heart girth, add \$13.00 to the 85% heart facial area, square edge and sound prices.
10. Square edge and sound, 85% heart cubical content, 8 x 6 and larger, not over 2" out of square, add \$5.00 to merchantable 1905 prices.
11. Prime structural, add to merchantable 1905 prices as follows:

24' and under	25' to 30'	31' to 40'
\$12.00	\$17.00	\$23.00

12. Select Structural, Add to Merchantable 1905 as follows:

Jolt, plank, beams and stringers.....	25.00	\$35.00	\$40.00
Posts and timbers.....	25.00	30.00	35.00

13. Select structural, heart requirement waived, deduct \$15.00 from select structural price.
14. No. 1 structural, same price as merchantable 1905.
15. Structural, square edge and sound, add \$3.00 to merchantable 1905 price.
16. Merchantable structural, add \$5.00 to merchantable 1905 price.
17. No. 2 timbers, deduct \$3.00 from merchantable 1905 price.

For condition:

18. Anti-stain treatment (any form) 3 x 3 to 10 x 10, add \$1.00; 3 x 12 and up, add \$2.00.
19. Kiln dried 20% moisture, add \$4.00.
20. Air dried 23% moisture, add \$4.00.

For size:

21. Fractional thickness, add \$3.00 to nearest listed thickness.
22. Fractional widths, price nearest even wider width.
23. 2" timbers, merchantable, 05 and grades above, add \$2.00 to the comparable 3" price, except for 2 x 14 and 2 x 16, add \$3.00.
24. Where the buyer specifies an average girth measurement, charge the price of specified size for the required girth average.

For length:

25. 10', 18' and 20', add \$2.00 to 8' to 14' price.
26. 22' and 24', add \$3.00 to 20' price.
27. 25' to 30', add \$1.00 per lineal foot to 24' price.
28. 31' to 36', add \$2.00 per lineal foot to 30' price.
29. 37' to 42', add \$3.00 per lineal foot to 36' price.
30. 43' to 50', add \$5.00 per lineal foot to 42' price.
31. 51' to 55', add \$3.00 per lineal foot to 50' price.
32. 56' to 60', add \$12.00 per lineal foot to 55' price.
33. Odd or fractional lengths, except 5' and 7', shall be counted and priced as next longest even length.
34. Where the buyer specifies an average length, charge the specified length price for the required lineal average.
35. Where the buyer specifies a cubic average, the price shall be that of the length in 12 x 12 required to equal the specified cubic average.

(c) For mixed car or mixed truck shipments, \$1.00 additional per 1,000 feet board measure may be charged. A mixed car shipment consists of three or more items as hereinafter defined, provided at least three items amount to not less than 2,000 board feet each, or at least six items amount to not less than 1,000 board feet each, or at least twelve items amount to not less than 500 board feet each. A mixed truck shipment consists of three or more items as hereinafter defined, provided at least three items amount to not less than 500 board feet each, or at least six items amount to not less than 250 board feet each. An item consists of one width, thickness, or pattern of finish, casing, base, mouldings, partition, ceiling, siding, plain end flooring, end matched flooring, factory flooring, shiplap, boards, strips, dimension or timbers, of either Shortleaf or Longleaf Yellow pine.

(d) (1) A delivered price in excess of the maximum f. o. b. mill prices set forth in paragraphs (a) and (b) of this section may be charged, consisting of such maximum prices plus the transportation costs permitted by this paragraph: *Provided*, That (i) the invoice shows the point of origin of the shipment, the destination, and the applicable railroad or truck rate, or, in place of such rate, where shipment is by motor vehicle owned or controlled by the seller, the amount added for transportation; and (ii) the invoice is marked "direct mill shipment".

(2) Where shipment is exclusively by motor vehicle owned or controlled by the seller, the charge may be no greater than the actual cost to the seller of delivery by motor vehicle; and in no event shall the charge exceed the railroad charge at

the carload rate for the most nearly comparable haul. If the actual cost is less than such railroad charge, only the actual cost may be added to the maximum price.

(3) Where shipment is by common or contract carrier, the amount added for transportation may be no greater than the actual amount paid to the carrier, except as provided in subparagraph (4) of this paragraph (d): *Provided*, That where shipment is by both rail and truck (either owned or controlled by the seller or a common or contract carrier), the following shall govern:

(i) Where shipment is by rail followed by truck delivery, the amount added for transportation may include, in addition to the amount added for rail transportation, the actual cost of truck delivery, provided such cost is shown separately on the invoice.

(ii) Where a truck haul precedes the rail shipment, as where a mill located away from a railhead hauls lumber by truck to the railhead, no addition may be made for such truck haul.

(4) In computing transportation costs, the following practices are permitted:

(i) The charging of a sum equivalent to the one-quarter of a dollar nearest to such transportation costs;

(ii) The averaging of transportation charges where a single order for which a single flat delivered price has been quoted and accepted is shipped from more than one mill to a single destination: *Provided*, That the following procedure is followed:

(a) The seller shall set forth in each invoice the transportation charges for the particular shipment, and indicate that the particular shipment is part of a larger order.

(b) At the completion of the transaction, the seller shall render a final invoice to the purchaser for the complete order, showing the individual prices of each item separately f. o. b. mill, the quantity of each item shipped from each mill, the exact amount of actual transportation charge applying to each shipment, and a reconciliation of the total amount so computed with the agreed delivered sales price and the maximum price permitted by this Maximum Price Regulation No. 19.

(c) The seller must send a copy of such final invoice to the Office of Price Administration in Washington, D. C., within ten days of the completion of the last shipment.

(iii) The use of the following estimated weights (even though higher than the actual weights) per one thousand feet board measure.

(e) An addition of \$7.50 per 1,000 feet board measure to the prices of the corresponding items set forth in Table 1 of paragraph (a) of this section may be made for "special soft texture finish" produced by the following manufacturers, subject to the following conditions:

(1) Before the manufacturer offers "special soft texture finish" for sale, any manufacturer intending to sell "special soft texture finish" and charge the premium provided by this paragraph must register with the Lumber Branch of the Office of Price Administration in Wash-

ington, D. C. as a producer of "special soft texture finish." Any such manufacturer must certify in his application for registration that he sold "special soft texture finish" and obtained a premium for it between October 1, 1941 and March 31, 1942. Upon filing such application, this manufacturer's "special soft texture finish" may be offered and delivered at the \$7.50 premium, but final payment may not be made or accepted until such manufacturer's registration has been approved and his name published in the Federal Register at the end of this paragraph (e) (1). The following producers have qualified as producers of "special soft texture finish":

(2) Such lumber must be clearly marked as "special soft texture finish."

(3) The \$7.50 additional charge shall be quoted and invoiced separately.

(f) For grades and classes of lumber recognized by the Southern Pine Association Standard Specifications for Southern Pine Lumber, dated July 1, 1939, and not specifically priced in this section, the seller shall determine a tentative price by taking the price of the most nearly comparable grade or item specifically priced in paragraphs (a) and (b) of this section, and applying thereto the average differential between the two items maintained by the seller during the period January 1 to August 1, 1941. If the seller had no established differential during that period, he shall apply the average differential maintained by his most closely competitive seller during that period. If neither the seller nor a competitive seller had such a differential, the seller shall apply a differential based on comparative grade value.

The tentative price so determined shall be submitted for approval to the Lumber Branch of the Office of Price Administration in Washington, D. C. together with a statement as to the manner of determining the price which shall include the following facts:

(1) The paragraph number of the Southern Pine Association Standard Specifications for Southern Pine Lumber, dated July 1, 1939, which states the specifications of the item to be priced.

(2) The item specifically priced in paragraphs (a) and (b) of this section which was considered as the most nearly comparable.

(3) The weighted average f. o. b. mill prices received by the seller or by his most nearly competitive seller for each of these items during the period January 1 to August 1, 1941.

The Office of Price Administration shall adjust or approve the price so submitted and shall publish the approved maximum price in the FEDERAL REGISTER as an order under this Maximum Price Regulation No. 19. The price so approved and published shall thereafter be the maximum price for such item for that seller. After such tentative price has been submitted to the Office of Price Administration for approval, the seller may quote and deliver at that price, but the seller may not accept payment and the buyer may not make payment until such publication in the FEDERAL REGISTER.

(g) For grades and classes of lumber recognized by the Southern Pine Association Gulf Coast Classification and not specifically priced in this section, dated March 15, 1923, the seller shall determine a tentative price by taking the price of the most nearly comparable grade or item specifically priced in paragraphs (a) and (b) of this section, and applying thereto the average differential between the two items maintained by the seller during the period January 1 to August 1, 1941. If the seller had no established differential during that period, he shall apply the average differential maintained by his most closely competitive seller during that period. If neither the seller nor a competitive seller had such a differential, the seller shall apply a differential based on comparative grade value.

The tentative price so determined shall be submitted for approval to the Lumber Branch of the Office of Price Administration in Washington, D. C. together with a statement as to the manner of determining the price which shall include the following facts:

(1) The paragraph number of the Southern Pine Association Gulf Coast Classification which states the specifications of the item to be priced.

(2) The item specifically priced in paragraphs (a) and (b) of this section which was considered as the most nearly comparable.

(3) The weighted average f. o. b. mill prices received by the seller or by his most nearly competitive seller for each of these items during the period January 1 to August 1, 1941.

The Office of Price Administration shall adjust or approve the price so submitted and shall notify the seller in writing the approved maximum price for such item which price shall thereafter be the maximum price for such item for that seller. After such tentative price has been submitted to the Office of Price Administration for approval, the seller may quote and deliver at that price, but the seller may not accept payment and the buyer may not make payment until such written notice has been received by the seller.

(h) No additions may be made for workings, specification, services, or other extras not expressly provided for herein:

Provided, That the seller may apply to the Office of Price Administration in Washington, D. C. for instructions as to additions for workings, specifications, services, or other extras not provided for. In such application the seller shall describe in detail the workings, specifications, services or other extras not provided for. Pending receipt of such instructions the seller may quote and deliver at a price which is agreed by the parties to be subject to adjustment to the price determined by the Office of Price Administration, but the seller may not accept payment and the purchaser may not make payment until such instructions have been received.

(i) Where moisture content requirements are waived by the purchaser, the maximum price shall be the price herein established for green lumber. In such a sale the seller may not use the estimated weight for green lumber in computing transportation costs, but must use either the actual weight of the lumber or the permitted estimated weights for dry lumber.

(j) The maximum prices herein established shall not be increased by any charges for the extension of credit, and shall be decreased for prompt payment to the same extent that the sale price would have been decreased by the seller on August 1, 1941. The cash and credit periods recognized by the seller on August 1, 1941, shall not be reduced.

(k) All invoices of lumber must show the size, grade, condition of seasoning, working, and other specifications of the lumber, and whether it is Shortleaf Yellow pine or Longleaf Yellow pine lumber and, in the case of a sale on a delivered basis, the information required by § 1381.212 (d).

(l) No person shall pay, and no person shall charge or receive a commission for purchasing Southern pine lumber which is based on the amount or value of lumber purchased, if the amount of the commission plus the purchase price is higher than the maximum price permitted* by this Maximum Price Regulation No. 19.

(m) The maximum price for sales on combination grades shall be the maximum price in this section established for the lowest grade named in the combination.

(n) A gross price above the maximum price herein established shall not be quoted, even if accompanied by a discount the effect of which is to bring the net price below such maximum price.

Issued this 14th day of July 1942.

LEON HENDERSON,
Administrator.

PART 1305—ADMINISTRATION

[Supplementary Order 9]

COMMODITIES OR SERVICES UNDER GOVERNMENT CONTRACTS OR SUBCONTRACTS

APPLICATIONS FOR ADJUSTMENT OF MAXIMUM PRICES

A statement of the considerations involved in the issuance of this Supplementary Order, issued simultaneously herewith, has been filed with the Division

of the Federal Register.¹ For the reasons set forth in that statement and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, it is hereby ordered:

§ 1305.12 *Applications for adjustment of maximum prices for commodities or services under Government contracts or subcontracts.* (a) Any person who has entered into or proposes to enter into a contract with the United States or any agency thereof, or with the Government of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States," or any agency of any such Government, or a subcontract under any such contract, who believes that a maximum price established by any price regulation of the Office of Price Administration impedes or threatens to impede production of a commodity, or supply of a service, which is essential to the war program and which is or will be the subject of such contract or subcontract, may file an application for adjustment of such maximum price in accordance with Procedural Regulation No. 6.² Upon the filing of an application for adjustment and pending the issuance of an order granting or denying such application, contracts or subcontracts may be entered into, or offered to be entered into, and deliveries may be made, at the price requested in such application. If, however, the order issued denies the application in whole or in part, the contract price shall be revised downward to the maximum price ordered, and if any payment has been made at the requested price, the applicant may be required to refund the excess.

(b) "Price Regulation," as used in this Supplementary Order, means a price schedule effective in accordance with the provisions of section 206 of the Emergency Price Control Act of 1942, a maximum price regulation or temporary maximum price regulation heretofore or hereafter issued by the Office of Price Administration, or any amendment or supplement thereto or order heretofore or hereafter issued thereunder.

(c) *Effective date.* (1) This Supplementary Order No. 9 (§ 1305.12) shall become effective July 16, 1942.

[Amendment 13 to General Maximum Price Regulations¹]

PRECIOUS STONES

A statement of the considerations involved in the issuance of this Amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Section 1499.20 (z) is amended to read as set forth below.

§ 1499.20 *Definitions and explanations.* This General Maximum Price Regulation, and the terms appearing therein, unless the context otherwise requires, shall be construed as follows:

(z) "Precious stones" means any ruby, sapphire, emerald, natural pearl, or any diamond (other than an industrial diamond) weighing more than 1.00 carat, or any semi-precious stone after sale by the cutter, when the cutter has received more than \$100 for the sale of the stone. Synthetic stones and cultured pearls shall not be deemed "precious stones". If two or more diamonds (other than industrial diamonds) with an aggregate weight of 1.50 carats are set in one mounting, the diamonds shall be deemed precious.

§ 1499.23a *Effective dates of amendments.* * * *

(m) Amendment No. 13 (§ 1499.20 (z)) to this General Maximum Price Regulation shall become effective July 16, 1942.

AUTHORITY: §§ 501.4 to 501.14, inclusive, issued under E.O. 8989, 6 F.R. 6725, and E.O. 9156, 7 F.R. 3349.

§ 501.4 *Definitions.* As used herein:

(a) The term "person" means any individual, firm, copartnership, corporation, municipal corporation, association, including a farm cooperative association as defined in the Agricultural Marketing Act, approved June 15, 1929, as amended, or other type of legal entity, or any trustee, receiver, assignee, or personal representative thereof.

(b) The term "property" means anything, except passengers, capable of being transported by motor truck.

(c) The terms "common carrier" and "carrier" mean any person which holds itself out to engage in the transportation of property for the general public in over-the-road service by motor truck for compensation, regardless of the designation of such person under any Federal or State statute.

(d) The terms "motor truck" and "truck" mean either (1) a straight truck, (2) a combination truck-tractor and semi-trailer, (3) a full trailer, (4) or any combination thereof, (5) or any other rubber-tired vehicle propelled or drawn by mechanical power when used in the transportation of property.

(e) The term "gross weight" means the aggregate weight of a motor truck and its lading.

(f) The term "rated load carrying ability" as applied to a truck means the weight which the tires mounted on the load bearing wheels of such truck are capable of carrying as determined in the manner set forth in Appendix No. 1 attached hereto.

(g) The terms "capacity load" or "loaded to capacity" as applied to a truck mean either (1) the quantity of property, by weight which may be carried in said

truck, determined by deducting the weight of said truck from its rated load carrying ability, or (2) the maximum quantity of property, by volume, which may be stowed by efficient methods and safely transported in the load bearing space of the truck, whichever quantity is the lesser in weight.

(h) The term "over-the-road service" means all operations of a motor truck except (1) those within an area which includes any municipality or urban community and a zone extending twenty-five (25) air miles from the boundaries thereof; (2) those within and between contiguous municipalities or urban communities; and (3) those not more than twenty-five (25) miles in length, except those operations by a carrier between its terminals.

(i) The term "highway" means the roads, highways, streets and ways in any State.

(j) The term "circuitous route" means any highway route or routes or combination thereof, the mileage of which exceeds the mileage of the most direct highway route by ten (10) per cent or more. Highway mileage of such route shall be as shown in the current edition of the Rand McNally Road Atlas of the United States, Canada, and Mexico.

(k) The term "special equipment" means any low-bed motor truck, or any motor truck the primary carrying capacity of which is occupied by mounted machinery.

§ 501.5 *Elimination of waste.* Every common carrier shall:

(a) Eliminate wasteful operation and duplication of parallel services, and curtail schedules and services to the extent necessary to carry out the purposes of this subpart;

(b) Curtail the speed of motor trucks to 40 miles per hour or less;

(c) Conserve and properly maintain tires, motor trucks, and other facilities necessary in conducting the business of such common carrier;

(d) Lease or rent motor trucks whenever practicable and to the extent necessary to carry out the purposes of this subpart.

§ 501.6 *Loading and operating requirements.* (a) No common carrier shall operate any motor truck in over-the-road service unless it is loaded to capacity, except as follows:

(1) A motor truck, while outbound from the origin point of a trip to the point most distant therefrom to which the truck is operated on such trip, and also while inbound, may be operated on a portion of the route or routes traveled while empty or partially laden, if, during the course of the outbound or inbound movement, the truck is laden with a capacity load while operated over a considerable portion or segment of the route or routes traveled in over-the-road service, and if the carrier uses due diligence as hereinafter provided in maintaining a capacity load upon the truck at all times while en route.

(2) No carrier shall be deemed to have used due diligence as provided in sub-

paragraph (1) of this paragraph (a) in loading or maintaining a capacity load upon a truck unless, consistent with any prior commitments involving the use of said truck en route, the carrier and its representatives, including the representative in immediate control and possession of the truck, shall have endeavored in good faith, prior to its departure from any point with less than a capacity load, to obtain sufficient freight for loading the truck with a capacity load at such point and, failing in this, shall have endeavored in good faith to secure as much freight as possible for loading on said truck at such point, by making appropriate inquiry at and registering with the joint information office, established pursuant to General Order O. D. T. No. 13³ or by a State with the approval of the Office of Defense Transportation, at or near such point and, if there be no such office at or near such point, by making appropriate inquiry of other carriers at their offices or terminals, or both, located at such point. Nor will due diligence be deemed to have been used unless, consistent with prior commitments involving the use of the truck en route, the carrier and his said representative or representatives shall have accepted for shipment and transported all freight to the load capacity of the truck found to have been available by such inquiry, for transportation to the point of destination of the motor truck or to any point intermediate to or beyond such destination point; nor unless, when a truck has been discharged of all lading at any point on a trip and upon such inquiry no freight is found available for transportation on said truck pursuant to the provisions of said subparagraph (1), the carrier shall have endeavored in good faith to lease or rent such truck, consistent with prior commitments involving the use of the truck en route, to another person for transportation of property.

(3) Nothing in this subpart contained shall be construed to require the loading of a motor truck to such an extent that the gross weight of the truck will exceed the actual safe capacity of any bridge or other structure en route, as determined by State or local authorities, or will exceed the maximum gross weight limitations prescribed by the applicable State law, proclamation, or regulation, Federal statute, or Executive Order, whichever is currently controlling, but such truck shall be loaded as nearly to the extent required by this subpart as may be consistent with such applicable limitations.

(4) A motor truck which has been so disabled en route that a capacity load cannot be transported or carried thereon may be operated in over-the-road service empty or partially laden to the nearest point where the common carrier operating said truck maintains, provides, or can obtain repair services.

(b) No common carrier shall:

(1) Operate in over-the-road service any motor truck, the gross weight of

¹ 7 F.R. 3004.

² 7 F.R. 4118; 7 F.R. 4185.

³ 7 F.R. 5066.

which exceeds by more than twenty (20) percent its rated load-carrying ability, or

(2) Accept or receive any property for transportation over a circuitous route, except when adequate common carrier service on or along such route is not otherwise available; or except when operation over the direct route may be unsafe, impossible, or more destructive of tires.

(c) The provisions of this subpart shall not be so construed or applied as to require any common carrier to perform any transportation service, the performance of which by it is not authorized or sanctioned by law or to render any such service beyond its transportation capacity.

§ 501.7 *Exemptions.* (a) The provisions of paragraph (a) of § 501.6 shall not apply to or include the following:

(1) Any motor truck while actually transporting exclusively high explosives, such as, and including, dynamite, blasting caps, detonation fuses, black powder, gun powder, and other like explosives, susceptible to detonation by a blasting cap, and the accessories necessary for the use of the foregoing;

(2) Any motor truck while operated under direction of the armed forces of the Federal or a State government;

(3) Any motor truck when engaged exclusively in the transportation of repair or service men and their supplies or equipment;

(4) Any motor truck operated exclusively in connection with the construction and maintenance of essential telegraph, telephone, organized radio communications, electric light and power, gas, and water supply utilities, and pipelines, railroads, street railways and public highways.

(5) Any motor truck operated in emergencies exclusively for the purpose of making deliveries of medicines or other supplies or equipment necessary for the protection or preservation of life, health or public safety;

(6) Any motor truck operated exclusively for the purpose of collecting and disposing of sewage or garbage or rendering other sanitation services, pursuant to governmental order, regulation or contract.

(b) The provisions of paragraph (a) and subparagraph (1) of paragraph (b) of § 501.6 shall not apply to the operation of any special equipment;

(c) The provisions of this subpart shall not apply to:

(1) Any motor truck, the primary carrying capacity of which is occupied by a mounted tank or tanks;

(2) Any motor truck controlled and operated by any person or persons principally engaged in farming, when used in the transportation of agricultural commodities and products thereof, from a farm or farms, or in the transportation of farm supplies to a farm or farms.

§ 501.8 *Special or general permits.* The provisions of this subpart shall be subject to any special or general permit issued by this Office to meet specific

needs or exceptional circumstances, or to prevent undue hardship.

§ 501.9 *Submission of plans for joint action.* Whenever joint action between two or more common carriers is contemplated in order to accomplish any of the purposes of this subpart, such common carriers may formulate and submit to this Office for consideration, a plan or plans designed to accomplish such purposes by one or more of the methods described below:

(a) Alternate or stagger motor truck schedules between two or more points;

(b) Reciprocally exchange shipments of property between two or more points;

(c) Pool traffic, revenues, or both, between two or more points;

(d) Jointly load for transportation or operate a motor truck or trucks between two or more points;

(e) Divert traffic, operate joint terminals or joint pick-up or delivery vehicles;

(f) Establish arrangements with other carriers for the interchange of equipment;

(g) Appoint one of their own number or any other person or carrier to act as its or their individual, common or joint agent, to concentrate, receive, load, forward, carry, unload, distribute, and deliver property; receive, account for, and distribute gross or net revenues therefrom, or otherwise handle or conduct the carrier's business as common carriers of property upon just and reasonable terms and conditions: *Provided*, That this subpart shall not be construed to authorize any common carrier or carriers to operate in any of the methods described in this section unless directed so to do by the Office of Defense Transportation or unless pursuant to a contract, agreement or combination approved by the Interstate Commerce Commission or a State regulatory body.

§ 501.10 *Interchange of traffic; holding shipments; billing and rates applicable.* (a) Every common carrier whether by rail, motor, water, or otherwise, shall accept and receive from any common carrier as defined herein and transport all shipments of every kind. Such shipments shall be handled and transported in the same expeditious and efficient manner as shipments of a like nature received from any other source.

(b) No common carrier shall hold, carry over, store, or warehouse any shipment at any one station, except the final destination of the shipment, for longer than 36 hours, or at two or more such stations for an aggregate period of more than 48 hours, except where there is no other common carrier by rail, motor, water, or otherwise, capable of transporting the shipment consistent with the provisions of this subpart.

(c) Whenever a shipment is interchanged or diverted pursuant to the provisions of this § 501.10 the shipment shall be accepted and received by the carrier with which interchange is made or to which diverted at the connecting or diverting carrier's station or at the consignor's door, as the case may be, and

such carrier shall load, transport, forward, or deliver, as the case may be, such shipment as the agent of the carrier which first accepted the shipment for transportation and under and pursuant to its rates, rules, regulations and practices, and shall honor and conform to its bill of lading or other billing, except as to any routing instructions therein inconsistent with the requirements of this section.

§ 501.11 *Records and reports.* Every common carrier shall prepare and maintain such records, and make such reports, as this Office may hereafter require for the purpose of this subpart, and keep such records available and open for inspection at all reasonable times for examination by an accredited representative of this Office.

§ 501.12 *Carrier liability.* Common carrier responsibility to the owner of any property being transported and among the carriers participating in such transportation shall be as provided by law for initial, terminating, intermediate, or delivering carriers.

§ 501.13 *Division of revenues.* Every common carrier by rail, motor, wafer, or otherwise, shall establish just, reasonable and equitable divisions of revenues derived from transportation performed pursuant to this subpart. Unless the division of revenues from any interchanges or diversion of shipments made pursuant to the provisions of this subpart shall have been agreed upon by the interested carriers, or shall have been prescribed by the Interstate Commerce Commission, or by the appropriate State regulatory body, such revenues shall be divided as this Office shall order.

§ 501.14 *Filing of tariffs.* Every common carrier required by law to file tariffs of rates, charges, rules, or practices shall file forthwith with the Interstate Commerce Commission in respect of transportation in interstate or foreign commerce and with each appropriate State regulatory body in respect of transportation in intrastate commerce, and publish in accordance with law, and continue in effect only for the duration of the present emergency unless otherwise ordered, tariffs or appropriate supplements to filed tariffs, setting forth any changes in the rates, charges, rules, regulations, or practices of such common carrier which may be necessary to accord with this subpart, together with a copy of this subpart; and forthwith shall apply to said Commission and each such regulatory body for special permission for such tariffs or supplements to become effective on one-day's, or the absolute minimum period of, notice.

Subpart B of Part 501 of Chapter II of Title 49 of the Code of Federal Regulations (General Order O.D.T. No. 3) be and the same is hereby cancelled effective as of the date this subpart becomes effective: *Provided, however*, That the provisions of this subpart which are consistent with the provisions of said Subpart B shall be deemed and construed to be in continuation thereof.

This subpart shall become effective and shall supersede said Subpart B (General Order O.D.T. No. 3) on August 1, 1942.

Issued at Washington, D. C. this 13th day of July, 1942.

JOSEPH B. EASTMAN,
Director of Defense Transportation.

APPENDIX NO. 1

Under the terms of § 501.4 (f) of this subpart, the rated load carrying ability of the tires mounted on the running wheels of a motor truck shall be determined by multiplying the number of tires mounted on the running wheels of such motor truck, of the size and description actually used, by the number of pounds appearing opposite the description of such tires in this Appendix.

Example: A motor truck uses 10 running tires, size 9.00-20, ten ply. The rated load carrying ability of each such tire, in pounds per tire, as shown in this Appendix, is 3450. Multiply 10 (number of tires) by 3450 (rated load carrying ability of each tire). The result is 34,500 pounds, which is the "rated load carrying ability" of the motor truck as defined in § 501.4 (f).

C. E. WERNER, JR.

ORDER SUSPENDING REGISTRATION OF DISTRIBUTOR

This proceeding having been initiated by the Bituminous Coal Division, pursuant to section 4 II (h) of the Bitumi-

¹ 7 F.R. 3004.

² 7 F.R. 3005.

³ 7 F.R. 3007.

nous Coal Act of 1937 and § 304.14 of the Rules and Regulations for the Registration of Distributors in order to investigate and determine whether C. E. Werner, Jr., a registered distributor, Registration No. 9584, of Chattanooga, Tennessee, has violated the provisions of the Act, the Rules and Regulations for the Registration of Distributors, the Marketing Rules and Regulations Incidental to the Sale and Distribution of Coal, and the Agreement by Registered Distributor signed by respondent;

A Notice of and Order for Hearing having been issued and the respondent having submitted his answer;

Pursuant to appropriate orders, a hearing in this matter having been held on January 23, 1942, before Travis Williams, a duly designated Examiner of the Division, at a hearing room thereof in Chattanooga, Tennessee, at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard, at which the respondent appeared;

The preparation and filing of a report by the Examiner having been waived and the record in this proceeding having thereupon been submitted to the undersigned;

The undersigned having made Findings of Fact and Conclusions of Law and Opinion, which is filed herewith;¹

Now, therefore, it is ordered, That the registration of C. E. Werner, Jr., as a registered distributor, Registration No. 9584, be, and it hereby it, suspended for a period of sixty (60) days beginning fifteen (15) days after the date of this Order: *Provided, however,* That if the respondent shall not have complied with the provisions of § 304.15 of the Rules and Regulations for the Registration of Distributors at least five days prior to the expiration of said suspension period, said suspension shall continue in full force and effect until five days after the affidavit required by said section 304.15 shall have been filed with the Division.

It is further ordered, That the effect of such suspension shall not be evaded directly or indirectly by the use of any device such as a sales agency agreement or any other device; that such suspension shall not excuse respondent from all duties and functions imposed upon him by the Act and the rules, regulations and orders of the Division.

It is further ordered, That the respondent return to the producers all improperly collected discount; and that a statement by the respondent that such refunds have been made shall be included in the affidavit filed by the respondent, pursuant to § 304.15 of the Distributors' Rules.

Dated: July 11, 1942.

[Circular 1512]

EAST MOUNTAIN CITY, NEVADA

REGULATIONS FOR OPENING OF TOWN LOTS TO PREEMPTION ENTRY

1. *Statutory authority.* The lots in the town site of East Mountain City, Nevada, will be disposed of under sections 2382 to 2386, Revised Statutes. The town site plat was approved June 5, 1941.

2. *Price.* The minimum price for all lots of 4,200 square feet or less is \$10 per lot, and for all lots in excess of 4,200 square feet will be computed by adding to the minimum price of \$10 the sum of \$4 for each additional 1,000 square feet or fractional part thereof in excess of 4,200 square feet.

3. *Preemption claims.* Any person who has established settlement on any lot prior to April 25, 1939, the date of the commencement of the survey in the field, and maintained such settlement to the date of proof, is entitled to make a preemption entry for such lot and one other lot on which he has made substantial and permanent improvements at the minimum price. A preemption claim is not necessarily forfeited by the settler transferring his interest to another, subsequently to accrual of the right, but patent, if issued, will be in the name of the settler and not the transferee.

The notice of intention to make preemption proof should be made on Form 4-348 and should give the date of settlement and the value and character of the improvements, and in order that all bona fide preemption rights may be

determined prior to the date of public sale, claimants should file their notices of intention to submit proof on or before September 10, 1942.

On the filing of the notice of intention by the applicant the Register will issue notice for publication, which the applicant must have published at his expense in four consecutive issues prior to the date set for the proof in the "Independent," a weekly newspaper published on Friday at Elko, Nevada. Proof, consisting of the affidavit of the applicant and of at least two of the advertising witnesses, may be made before the Register of the District Land Office at Carson City, Nevada, or before any other officer authorized to take proofs under the homestead laws, and must show the claimant's age, citizenship, and facts regarding the extent of his residence on one lot and the nature and value of the improvements on the second lot and the dates each of the improvements were placed thereon in cases where two lots are included in an application. Proof of publication must be shown by the affidavit of the publisher. The purchase price of the lot or lots must be paid to the Register when the proof is made.

4. *Citizenship.* Each purchaser of a lot must furnish evidence that he is a native born or naturalized citizen of the United States. If he is a naturalized citizen, satisfactory evidence thereof must be submitted. This may consist of the original certificate of naturalization, which will be promptly returned to the applicant after examination by the General Land Office. In lieu thereof, claimant may show the facts as to his citizenship status, which should include a statement as to the date of his naturalization, the title and location of the court in which the proceedings were instituted, and when available, the number of the document in question, if the proceedings were instituted since September 26, 1906. In cases of naturalization prior to September 27, 1906, there should also be given the date and place of the applicant's birth, and the foreign country of which he was a citizen or subject. If the claimant is a married woman the facts establishing her citizenship and that of her husband must be shown in accordance with Circular No. 1248, April 18, 1931 (53 I. D. 374; 43 CFR 137.3, 137.4).

Upon consideration of the application for authority to coordinate motor vehicle service in the transportation of passengers, filed with this Office by Atlantic Greyhound Corporation, Charleston, West Virginia, Carolina Coach Company, Carolina Coach Company of Virginia, and Carolina Coach Company of Virginia as operator of J. C. Gilley d/b/a/ Carolina-Virginia Lines, Raleigh, North Carolina, and in order to assure maximum utilization of the facilities; services, and equipment of common carriers of passengers by motor vehicle, and to conserve and providently utilize vital equipment, material, and supplies, including rubber, the attainment of which purposes is essential to the successful prosecution of the war, Special Order O.D.T. No. B-5 is hereby amended to read as follows:

It is hereby ordered, That:

1. Atlantic Greyhound Corporation, Carolina Coach Company, Carolina Coach Company of Virginia and Carolina Coach Company of Virginia as operator of J. C. Gilley d/b/a/ Carolina-Virginia Lines (hereinafter called "carriers"), respectively, in the transportation of passengers on routes served by them between points in the States of North Carolina and Virginia, as common carriers by motor vehicle shall:

(a) Honor each other's tickets between all points common to their lines where equal fares apply; and

(b) Divert to each other traffic routed between such points for the purpose of relieving overloads and reducing the operation of additional equipment in extra sections.

2. The carriers forthwith shall file with the Interstate Commerce Commission in respect of transportation in interstate or foreign commerce, and with each appropriate State regulatory body in respect of transportation in intrastate commerce, and publish in accordance with law, and continue in effect until further order, tariffs or appropriate supplements to filed tariffs, setting forth any changes in the rules, regulations, and practices of each carrier which may be necessary to accord with the provisions of this order, together with a copy of this order; and forthwith shall apply to said Commission and each such regulatory body for special permission for such tariffs or supplements to become effective on one day's notice.

This order shall become effective on July 15, 1942, and remain in full force and effect until further order of this Office.

Issued at Washington, D. C. this 13th day of July, 1942.

[Special Order O.D.T. B-7]

COORDINATED OPERATION OF PASSENGER CARRIERS BY MOTOR VEHICLE ON CERTAIN ROUTES IN PENNSYLVANIA, DELAWARE AND MARYLAND

Upon consideration of the application for authority to coordinate motor vehicle service in the transportation of passengers, filed with this Office by The Short Line, Inc. of Penn., West Chester, Pennsylvania, Red Star Motor Coaches, Inc., Salisbury, Maryland, and Pennsylvania, Greyhound Lines, Inc., Cleveland, Ohio, and in order to assure maximum utilization of the facilities, services, and equipment of common carriers of passengers by motor vehicle, and to conserve and providently utilize vital equipment, material, and supplies, including rubber, the attainment of which purposes is essential to the successful prosecution of the war.

It is hereby ordered, That:

1. The Short Line, Inc. of Penn., Red Star Motor Coaches, Inc., and Pennsylvania Greyhound Lines, Inc. (hereinafter called "carriers"), respectively, in the transportation of passengers on the

routes served by them between Philadelphia, and Rehoboth Beach, Delaware, and between Philadelphia, Pennsylvania, and Salisbury, Maryland, as common carriers by motor vehicle, shall:

(a) Honor each other's tickets between all points common to their lines where equal fares apply and divert to each other traffic routed between such points for the purpose of relieving overloads and reducing the operation of additional equipment in extra sections;

(b) Adjust and establish schedules to eliminate duplication of times of departure of the respective carriers and provide reasonable frequency of service throughout the day;

(c) Publish joint time tables;

(d) Cancel all excursion fares;

(e) Wherever practicable eliminate duplicate depot facilities and commission ticket agencies and, in lieu thereof, utilize joint depot facilities and joint commission ticket agencies. At such depot facilities and commission ticket agencies used jointly by the carriers, service, travel, information, and ticket sales shall be impartial, without preference or discrimination for or against either of such carriers.

2. The Short Line, Inc. of Penn. shall operate a through service of not to exceed one round trip daily between Philadelphia, Pennsylvania, and Rehoboth Beach, Delaware, and a through service of not to exceed three round trips daily between Wilmington, Delaware, and Rehoboth Beach, Delaware. Red Star Motor Coaches, Inc. shall operate no through service between such points.

3. Red Star Motor Coaches, Inc., shall operate a through service of not to exceed four round trips daily between Philadelphia, Pennsylvania, and Salisbury, Maryland. Pennsylvania Greyhound Lines, Inc., shall operate a through service of not to exceed three round trips daily between such points.

4. The carriers forthwith shall file with the Interstate Commerce Commission in respect of transportation in interstate or foreign commerce, and with each appropriate State regulatory body in respect of transportation in intrastate commerce, and publish in accordance with law, and continue in effect until further order, tariffs or appropriate supplements to filed tariffs, setting forth any changes in the fares, charges, operations, rules, regulations, and practices of each carrier which may be necessary to accord with the provisions of this order together with a copy of this order; and forthwith shall apply to said Commission and each such regulatory body for special permission for such tariffs or supplements to become effective on one day's notice.

This Order shall become effective July 15, 1942, and shall remain in full force

and effect until further order of this Office.

Issued at Washington, D. C. this 13th day of July 1942.

OFFICE OF PRICE ADMINISTRATION.

NAVAJO FLUORSPAR MINES

ORDER DETERMINING MAXIMUM PRICE

Order No. 4 under Maximum Price Regulation No. 126¹—Fluorspar.

Under date of June 12, 1942, Navajo Fluorspar Mines, Grants, New Mexico, applied to the Office of Price Administration for the determination of a maximum price at which it might sell fluorspar crude ore having a 70% ore content. By a letter dated June 18, 1942, it explains that 70% crude ore refers to a content of 70% CaF₂ on a dry basis. Under the provisions of § 1376.1 (a) (3) of Maximum Price Regulation No. 126, the Office of Price Administration will determine the maximum price at which fluorspar crude ore of a particular grade may be sold by a producer when the conditions named in that section exist. Due consideration has been given to that application, and an Opinion in support of this Order No. 4, has been issued simultaneously herewith and has been filed with the Division of the Federal Register. For the reasons set forth in the Opinion, under authority vested in the Price Administrator by the Emergency Price Control Act of 1942, it is hereby ordered that:

(a) Under the provisions of § 1376.1 (a) (3) of Maximum Price Regulation No. 126, issued April 28, 1942, the price of \$10.00 per net ton, f. o. b. Grants, New Mexico, for crude ore fluorspar based on 70% ore content (that is 70% CaF₂ on a dry basis) is determined to be a price in line with the level of maximum prices established by § 1376.1 of said Maximum Price Regulation for sales made by Nav-

¹ 7 F.R. 3189.

a) Fluorspar Mines, Grants, New Mexico, and the maximum price at which said company may sell or deliver said grade of fluorspar crude ore.

(b) This Order No. 4 may be revoked or amended by the Price Administrator at any time.

(c) This Order No. 4 shall become effective July 15, 1942.

Issued this 14th day of July 1942.

LEON HENDERSON,
Administrator.

[Amendment 2 to Administrative Notice
No. 1¹]

EXCEPTIONS GRANTED TO MACHINERY MANUFACTURERS

The Office of Price Administration during the fall and winter of 1941-42 requested manufacturers of many types of machinery and related equipment not to increase prices. Each manufacturer was advised that an application for an ex-

ception would be considered if the maintenance of the requested prices resulted in undue hardship. A number of applications for exceptions accompanied by supporting data were received and exceptions were granted by letter to certain manufacturers, a list of which was included in Administrative Notice No. 1. Additional applications for exceptions, accompanied by supporting data, were also received and exceptions granted by letter to certain manufacturers, but these were inadvertently not included in the list in Administrative Notice No. 1. Certain additional exceptions have also been granted since the issuance of Administrative Notice No. 1.

Pursuant to authority vested in The Administrator by the Emergency Price Control Act of 1942 it is hereby ordered that:

A new paragraph be added at the end of Administrative Notice No. 1 as set forth below.

Exceptions are granted to the below-named machinery manufacturers establishing as maximum prices for the specified products, the prices set forth below:

Technical Oil Tool Corp., Ltd.	Toteo Recorder.	Lease rates and initial sale price, Jan. 14, 1942.

¹ The maximum price for any such product is the price listed less all applicable discounts and allowances.

All manufacturers of motors, generators and industrial control equipment have been granted permission to make sales of such equipment between February 12, 1942, and April 10, 1942, at their prices and discounts in effect on February 12, 1942, except that three percent shall be deducted, before application of discount, from the price of any equipment having a list price in effect on Feb-

ruary 12, 1942, different from that in effect on October 1, 1941. Deliveries made at any time pursuant to sales made in such period at such prices are within the scope of this exception.

The Price Administrator hereby confirms the granting of these exceptions.

Issued this 14th day of July 1942.

TRUCK MINES IN DISTRICT NO. 10

CERTAIN EXCEPTIONS GRANTED

Amendment No. 1 to Order No. 4¹ under Maximum Price Regulation No. 120²—Bituminous Coal Delivered from Mine or Preparation Plant.

The preamble, and subdivisions (ii), (iii), and (iv) of paragraph (b) (2) of Order No. 4 under Maximum Price Regulation No. 120 are amended, subdivision (iii) is added to paragraph (b) (1), paragraph (c) is redesignated (e) and a new paragraph (c) is added, paragraph (e) is redesignated as paragraph (f) (1) and a new paragraph (f) (2) is added, as set forth below:

Upon the basis of representations made by the Bituminous Coal Producers Board for District No. 10 and several bituminous coal producers in District No. 10, a study was made of data on file with the Bituminous Coal Division of the United States Department of the Interior for the purpose of determining whether certain truck mines in that district are eligible for exception from the maximum prices provided in Maximum Price Regulation No. 120² under the provisions of § 1340.207 (a) of that regulation. Due consideration has been given to the information thus obtained, and an opinion in support of this Order No. 4 has been issued and filed with the Division of the Federal Register.

Careful consideration has also been given to the data adduced in support of petitions filed by three of these mines, the Peru Deep Vein Coal Company (Docket No. 3120-45), the Union Coal Company (Docket No. 3120-27), and the Spring Valley Coal Mining Company (Docket No. 3120-53). For the reasons set forth in the opinion accompanying Order No. 4 and the opinion accompany-
